## 2 SUBDIVISION APPROVALS ARE GIVEN BY BD. IN CUMBERLAND

The Cumberland Twp. supervisors at their meeting Thursday night in the home of Secretary Lawrence Heltzel, Mummansburg Rd., gave final approval to two additional subdivisions in the township, bringing to six the number of such developments approved so far by the supervisors.

Approved Thursday were a 27-home development of Buford, Inc., along the Herr's Ridge Rd. near its ending on the Biglerville Rd. and a three-home development planned by Andrew Larson along the Mummansburg Rd. three miles north of here.

President Howard Waybright and the other members of the board joined in a special plea to all "prospective purchasers of real estate in Cumberland Twp. and all present owners of property in the township proposing to improve their properties" to check first with township ordinances before beginning work.

### NEED BUILDING PERMITS

They pointed out that a number of persons had started work which was in conflict with ordinances, particularly the sanitation ordinance, and as a result there was additional expense on the part of the property owner and the supervisors found themselves in the unhappy position of having to insist that changes be made.

Noting that building permits must be obtained for construction work, the supervisors suggested those planning work check with ordinances before applying for the permits in order to save time and trouble.

Since most of the problems arising so far have been based on violations of the sanitation ordinance, the supervisors noted that the ordinance was passed to protect not

## TWO FOREIGN STUDENTS ARE IN SEMINARY

Two foreign students are among the 36 newcomers at the Lutheran Theological Seminary this year: Niels Nikolaus Hasselman, Hamburg, Germany, and Tsuyoshi Sonoda, Kumamoto, Japan.

Hasselman, 26, whose father is a bishop in Hamburg area, has studied a half year at each of the following universities in Germany: Hamburg, Heidelberg, Göttingen, and Kiel, and at Basil and Zurich University in Switzerland. He also spent a half year as a vicar in a German parish and University in Copenhagen, Denmark, and one year at the Lutheran Seminary for Preachers in Munich, Germany.

He plans to take courses in the practical field of the ministry during his one-half year at the seminary here and will work in a parish somewhere in the United States for another half year before returning to Germany.

Tsuyoshi Sonoda attended the Baptist College in Kyushu, Japan, for two years and was then ordained after four years of training at Javan Lutheran Theological Seminary in Tokyo. He had had nine years of experience as a Lutheran minister in Japan.

Tsuyoshi is being sponsored by the Board of Foreign Missions, and plans to remain at the seminary for two years before returning to Japan. His family will arrive in the United States next year. During this two-year period he hopes to be able to visit various Lutheran congregations throughout the United States.

### BLOOD DONORS

## RETIREMENT PLAN STUDIED BY OFFICIALS

The Adams County commissioners Thursday afternoon heard details of possible retirement plans for county employees in continuation of the study designed to meet a state requirement that the county have an employee's retirement plan by January 1, 1963.

County employees currently are under Social Security but the state law, the commissioners have been told, calls for a special retirement plan for the county workers.

During the last several months, the commissioners have had a number of agents before them to outline their respective retirement systems. Today Vincent J. DeFragk, administration officer for the Municipal Employees Retirement Board of the state, outlined to the two commissioners present, Charles B. Bender and Clarence J. Waybright, and Clerk Crosby N. Hartzell and Solicitor Attorney Charles W. Wolf details of the state plan for municipal employees' retirement. E. Donald Scott, president of the board of commissioners, is a participant in the plan.

## BULLETINS

WASHINGTON (AP) — President Kennedy, acting in the face of a Communist buildup in Cuba and other international tension, sought authority today to order 150,000 reservists to active duty.

The White House said Kennedy would send proposed legislation to grant him this power to Congress this afternoon.

This legislation would place a ceiling of 150,000 men from the reserves of all the armed forces and limit the period of service to no more than 12 months.

Kennedy could exercise the authority from the time Congress adjourns until next Feb. 28, about two months after the Senate and House reconvene.

WASHINGTON (AP) — The Senate Judiciary Committee approved Thurgood Marshall's nomination to be a federal judge by a vote of 11 to 4 today.

The four votes against recommending Senate confirmation of the Negro attorney, former counsel for the National Association for the Advancement of Colored People, were cast by Southern Democrats.

Marshall's nomination to be a judge on the 2nd U.S. Circuit Court of Appeals first was submitted by President Kennedy a year ago this month.

## 45,000-Man Regular Army Poses New Algerian Threat

By ANDREW BOROWIEC

ALGIER (AP) — Deputy Premier Ahmed Ben Bella and his political bureau faced the threat of harassment from a new quarter today—the militant commander of the new nation's 45,000-man regular army.

After a five-day, vest-pocket civil war rebellious guerrillas in control of Algiers and central Algeria recognized the authority of the political bureau as Algeria's temporary government Thursday.

Ben Bella in turn put a brake on the regular army, which had ignored Tuesday's cease-fire agreement and tried to continue its advance to Algiers.

### PROTESTS TWO POINTS

Col. Houari Boumedienne, chief of staff of the regular army, reluctantly agreed to observe the cease-fire but bitterly protested two major points in the cease-fire agreement.

One clause that aroused Boumedienne's ire called for both the guerrillas and the regular army to stay clear of Algiers until after the legislative elections, which the political bureau Thursday scheduled for Sept. 16.

## EXPECT BIG FAIR CROWDS TONIGHT AND ON SATURDAY

Approximately 400 members of Future Farmers of America clubs from Adams and Franklin Counties swarmed over the South Mountain Fairgrounds today participating in a number of annual contests ranging from apple judging to tractor driving.

Fair officials, with the rains of the early part of the week apparently halted, were looking forward to a big attendance tonight and Saturday. Saturday the featured attraction will be a horse show by the 4-H horse clubs of the county.

Entertainment tonight will be presented by "The Pixies" and a record hop will be held between the appearances of the trio of singers from Hanover.

### CLIMAX AMATEUR SHOW

Saturday night will consist of an amateur show for which J. Glenn Miller will be master of ceremonies.

Meantime additional winners in various contests were being announced.

In the 4-H Agricultural Club exhibits Aspers, Southern Adams and the Adams County Dairy Club won first place ribbons. Second place awards went to the exhibits of Ridge View Pony Tails, Mt. Joy Community, South Mountain Community, Adams County Senior Extension, New Oxford Community and Town and Country Business Clubs. Third places were awarded Adams County Baby Beef, York Springs, Mason-Dixon and Bermudian Springs Clubs.

### AWARD WINNERS

## MOOSE LODGE INITIATES 8 ON THURSDAY

The initiatory degree of the Moose was exemplified for a class of eight candidates by the local degree team Thursday evening at a meeting at its home on York St.

Charles Mellott represented the class for the ceremony. The other members were: David Bray, Theodore March, Russell Nussbaum, Ralph Kessel, Harold Hartzell, Doyle Price and William J. Butler.

John W. Sanders is captain of the degree team which included Ralph Fisel, F. W. Schwartz, M. W. Shindecker, Archie Martin and Robert S. Neary.

### AWARDED PLAQUE

Governor Henry M. Herring and Secretary George Naugle reported on the state convention at Williamsport over the Labor Day weekend. Naugle displayed a plaque given the local lodge for the highest percentage of membership gain during the year ending April 30 among lodges in the 1,500-member class. The local lodge initiated 185 members.

Herring reported that the float and the marching unit entered by District 1 of the Eastern Division of the Pennsylvania Moose Association both won first place awards in the parade. District 1 is made up of 12 lodges including Gettysburg and 26 members of the Gettysburg lodge were in the marching unit.

Chairman John W. Sanders said the annual banquet for past governors and their wives will be held at the home September 30 at 5 p.m. Details will be announced later.

### WORK ON PARK

A moment of silence was conducted in memory of Donald L. Crone, who died recently.

Progress on the clearing of the farm purchased by the lodge east of here was reported. A swimming pool will be installed, Secretary Naugle said. "Moose Park" will be presented to the lodge in the near future.

In the meantime he said members are urged to donate their services clearing brush etc., at the park. Those who can donate an afternoon or day are asked to notify Secretary Naugle, listing the times when they can be present.

The winter schedule of two meetings a month was resumed this month. The next meeting will be held September 20.

### WILL IS FILED

The will of Mary I. Ayre, late of Gettysburg, who died July 26 in New Oxford, has been entered for probate at the office of the county register and recorder. A son, William S. Ayre, is an executor of the \$1,200 estate.

## WOMAN WINS BEST OF SHOW AWARD IN ART

Thelma Watson, Chambersburg, was awarded the \$5 first prize as exhibitor of the "best picture in the show" in the art and handicraft division of the South Mountain Fair.

Frederic Hughes, Gettysburg, won the first place in oil portraits and Earle Deily, East Berlin R. 2, placed second in that class.

The judging of the arts and crafts displays, except the weaving, was done by Dr. Leon L. Winslow, Hanover, professor of art education at the Maryland Institute, formerly director of art for the Baltimore Department of Education. He is also the author of books on art education and a contributor to dictionaries and encyclopedias. The weaving was judged by Mrs. Lois C. Winslow, Hanover, teacher, weaver and craftsman and a member of the Pennsylvania Weavers' Guild.

## Spy Is Still Unconscious After His Suicide Attempt

LONDON (AP) — Doctors fight to save the life of Dr. Robert A. Soblen said today the fugitive spy's heart is showing signs of exhaustion and his condition is causing anxiety.

Soblen, 61, was still unconscious more than 24 hours after he drugged himself in another attempt to escape being sent back to a life sentence in an American prison.

The psychiatrist was rushed to Hillingdon Hospital after taking a heavy concentration of barbiturates.

### TWO GUARD SPY

The hospital announced at 4:20 a.m. Eastern Standard Time: "Dr. Soblen remains unconscious. His heart is showing signs of exhaustion. His condition gives rise to anxiety."

Two security guards kept close watch over the fugitive as he lay in his drug-induced sleep.

The Home Office said Thursday Soblen, 61, would remain in the hospital at least 24 hours to re-

## Annual Service At Rock Chapel Sunday

Rock Chapel, one of the oldest Methodist Churches in this part of the county, will be the site for annual services to be held Sunday afternoon at 2 o'clock in the church which is part of the York Springs-Hunterstown-New Oxford charge.

The Rev. Amos D. Meyers, York Springs, who was pastor of the charge from 1950 until this summer, will deliver the sermon. The service will be conducted by the present pastor, the Rev. W. William Kennard.

Music for the service will be arranged by Mrs. John Millhimes and will include selections by a mixed quartet and the Junior Choir of the York Springs Methodist Church. The public is invited to attend the service.

Rock Chapel was the site of an early church built in 1773. The church was rebuilt in 1849 and has ties with Civil War history here. It is about a mile west of Route 15 and may be reached by a hard-surfaced road which turns off the Harrisburg Rd. at a historical marker about three and a half miles south of York Springs.

## WELFARE UNIT PREPARES FOR XMAS GIFTS

The advisory committee of the Adams County Child Welfare Services, meeting Thursday evening at the courthouse, began compilation of Christmas lists in order to have gifts for all of the youngsters under the services' care at Christmas time.

The advisory committee solicits donations during the fall to secure the gifts to be given the youngsters and also seeks additional donations for such things as music lessons now being given one of the children who is exceptionally talented and such niceties as class rings, trips to camp for boys and girls who are Scouts and their "pleasures" which the county cannot legally provide for the children under its care.

### 89 CHILDREN

The report of the director of Child Welfare Services, Miss Dorothy Curtis, who met with the advisory board Thursday night for the first time since her recent election to the post, showed 89 children from 42 families now assigned to the Child Welfare Services for care. Of that number 74 are directly under the care of the services, residing in foster homes, etc., and 15 are under the partial care by the organization.

Dr. Lloyd C. Keefe, chairman, presided at the meeting at which Mrs. Paul Pitzer, newly elected to the board, was introduced. Others present for the meeting included County Commissioner Charles B. Bender, Case-worker James Leshner and board members, Mrs. G. R. Schultz, Mrs. J. Faber Wildasin, Mrs. Edward C. Zinn, Mrs. Robert Cori, Mrs. George Eberhart and Mrs. Paul Lerew.

## Local Motorist Is Involved In Crash

Maurice F. Smith, of Gettysburg, will be charged with failure to yield the right of way as the result of a car-truck accident at 8:40 o'clock Thursday morning at an intersection in Chambersburg.

Smith, moved to the left lane of traffic into the right lane of traffic striking the milk truck of Ronald D. Musser, Mercersburg R. 1, who was stopped in a line of traffic.

Damage to the Musser truck was set at \$75 and to the Smith car at \$300, Chambersburg police reported.

## PLAN VISITS HERE

Noting that the Scouts as such have not been asked so far for any assistance by the state battle and speech anniversary committee, officials of the district at the same time recalled that in prior celebrations here the Scouts were asked to perform various messenger, guard and other duties and "we are asked."

### PLAN VISITS HERE

At the same time, the committee recalled the great number of Scouts that came to Gettysburg to camp and visit several years ago when the national jamboree was held at Valley Forge and said numerous reports have been given local committee members by Scout units elsewhere that those units plan to visit Gettysburg next year because of the centennial. "We will have some duties in connection with those visits and it is wise to prepare in advance," Chairman Charles Ritter told the group.

The committee began discussing (Continued On Page 3)

## CONNERS IS FOUND GUILTY ON ONE COUNT

After 4½ hours of deliberation an Adams County jury Thursday afternoon at 4:09 o'clock found James A. Conners, Carlisle R. 6, advertising salesman, guilty of a charge of cheating by false pretense brought against him by Alfred L. Shull, Latimore Twp. ceramic tile dealer, and innocent of a similar charge brought against him by Paul W. Wolf, York Springs garage owner and bus operator.

In connection with the charge on which Conners was found guilty, the jury recommended leniency.

Following the return of the verdict at 4:09 Thursday afternoon, Attorney David N. Savitt, Philadelphia, representing Conners, requested an arrest of judgment and new trial. The court placed Conners under \$500 bond to appear at the request of the district attorney and said there will be no disposition of the case until the court rules on the request. That ruling will come after the two days of testimony have been transcribed and argument is presented to the court by the district attorney and Conners' attorneys.

### ASKED INSTRUCTIONS

Principal allegation against Conners was misrepresentation. Shull and Wolf claimed Conners in selling them advertising told them he had telephone company permission to attach the special advertising covers to telephone directories. Conners denied saying he had such permission.

He also denied having negotiated a contract with Wolf, saying that transaction was handled for him by William Thomas, Lewisport, formerly one of his employees. Thomas testified he had been the man who sold the advertising to Wolf.

The jury, headed by Irvin Baker, East Berlin R. D., as foreman, began its deliberations at 11:38 Thursday morning. At 3:50 that afternoon it returned for instructions concerning the possibility of a recommendation of leniency.

### DEFENSE OBJECTIONS

At 3:59 the jury returned to the jury room and then came back into the courtroom, six minutes later carrying its verdict. Attorney Savitt then asked the court "in the light of the question asked previously" that it instruct the jury that a recommendation of leniency should not replace "reasonable doubt" — that if the jury had reasonable doubts as to the guilt of Conners it should find him innocent instead of merely recommending leniency.

The court then asked the jury to retire to talk over its decision in that light. Four minutes later, at 4:09, the jury came back with its final verdict of guilty in the one case, recommending leniency to the court, and innocent in the other case.

## SCOUTS TOLD TO PREPARE FOR '63 DUTY

The Black Walnut Boy Scout District committee Thursday night at its meeting in the West St. branch bank urged all of the units under its jurisdiction to prepare themselves for service activities in connection with the centennial activities here in 1963.

During the forthcoming centennial committee members said they expect the Scouts will be called upon for various duties in connection with the observance and at the same time expect to have some separate activities in connection with the visits of Scout units from other parts of the United States throughout next summer.

Noting that the Scouts as such have not been asked so far for any assistance by the state battle and speech anniversary committee, officials of the district at the same time recalled that in prior celebrations here the Scouts were asked to perform various messenger, guard and other duties and "we are asked."

### PLAN VISITS HERE

At the same time, the committee recalled the great number of Scouts that came to Gettysburg to camp and visit several years ago when the national jamboree was held at Valley Forge and said numerous reports have been given local committee members by Scout units elsewhere that those units plan to visit Gettysburg next year because of the centennial. Seek Use Of Armed Forces To Curb Cuba

WASHINGTON (AP)—The Senate House Republican leadership called for congressional action to authorize President Kennedy to use troops if necessary to meet the threat of the Communist military build-up in Cuba.

Republican spokesmen said Congress before adjournment, should adopt a resolution to give bipartisan backing and authority for Kennedy to take whatever steps he deems necessary, including the use of armed forces, to protect vital security interests.

Sen. Everett M. Dirksen of Illinois, Senate GOP leader, said the party leadership proposed a resolution similar to one Congress adopted in 1955 when it authorized former President Dwight D. Eisenhower "to employ our own armed forces as he deemed necessary" to protect Formosa and the Pescadore Islands from the Communist Chinese threat.

ASK RESOLUTION

Dirksen and Rep. Charles A. Halleck of Indiana, House Republican leader, said they are drafting letters to Vice President Lyndon B. Johnson and House Speaker John W. McCormack of Massachusetts recommending the preparation of such a resolution by the Senate Foreign Relations and House Foreign Affairs Committees.

"This course of action by the Congress will reflect determination and clear purpose of the American people, and will demonstrate to the world the firmness of this nation in meeting this problem," Dirksen said in a statement after a meeting of the top Republican congressional leaders.

NEW STUDENTS ARE GUESTS

New students from Adams County entering Gettysburg College next week were honored at a dinner Thursday evening in the Lamp Post Tea Room by the Adams County Alumni Club.

He was the husband of the late Urith A. Waltemyer. There were no children. His survivors are a brother, Dr. William C. Waltemyer, Springs Ave. and a sister, Mrs. Mary Schleutter, Baltimore. Funeral services were conducted at 2 p.m. today in the chapel at Greenwood Cemetery, Baltimore.

SMALL MARKET GAINS. NEW YORK (AP)—The stock market retained a razor-thin upside edge early this afternoon in moderate trading.

Prices moved up at the opening but gradually receded. By Mid-day the margin of gainers over losers had shrunk to a minimum.

Many of the higher priced issues went through some of the same gyrations they experienced earlier this week. Polaroid and IBM were up a point and off a point at various times during the morning.

Sir Winston Casts Away His Walking Aids

LONDON (AP) — Amazing Sir Winston Churchill said goodbye today to walking aids, put on an American hat and sat in the sun.

Said a spokesman at his London home: "He's getting better and better every day. He's walking about the house and is having quite a number of visitors."

Sir Winston — who will be 88 in November — fractured his hip on June 28. On August 21 he left a London hospital after making a spectacular recovery.

Doctors sent him a pair of parallel bars and urged him to use them in getting back full use of his legs. Now the bars have been returned.

And, taking advantage of a spell of sunshine, he toddled out into the garden of his home near London's Hyde Park, and plopped down in a chair, a cigar clamped between his teeth. On his head was a huge American hat, a western-style Stetson, given him during one of his many visits to the United States.

DIES AT 92; HAD 154 SURVIVORS

Mrs. Sarah Jane Strausbaugh, 92, McSherrystown, died Thursday at 11 a.m. at the Hanover Hospital where she had been a patient for about two weeks.

She was a daughter of the late Aloysius and Joanna Storm Billman. Her husband was the late James P. Strausbaugh who died in 1926.

The deceased was a member of the Annunciation of the Blessed Virgin Mary Church, the Archfraternity of the Passion and the National Council of Catholic Women.

Surviving are five children: Mrs. Paul Weaver, York; Mrs. Guy Graft, McSherrystown; Mrs. Earl Graft, Hanover; Mrs. Herbert Hildebrand, Hanover; Mrs. Robert LeGore, Hanover; 39 grandchildren; 90 great-grandchildren, and 20 great-great-grandchildren.

Funeral services on Monday morning with prayers at 8:30 o'clock at the Walter Funeral Home, McSherrystown, followed by a Requiem Mass at the Annunciation Church with the Rt. Rev. Msgr. Patrick F. McGee, celebrant. Burial will be in the parish cemetery.

Friends may call at the funeral home on Sunday evening when the Rosary will be recited at 8 o'clock.

YOUTH CENTER TO HOLD DANCE

The first fall dance of the Gettysburg Youth Center will be held Saturday evening at 8 o'clock on the third floor of the American Legion home, it was announced at a meeting Thursday evening at the center.

The annual membership drive will begin at the dance. Dues are 35 cents per month. After September 11, the center will be open Mondays and Tuesdays from 3:30 to 4:30 p.m., Wednesdays from 7 to 8 p.m., Saturdays 8 to 11 p.m., the committee announced.

Thursdays and Fridays will be "open dates" for special events. Plans were made for a bake sale Saturday morning, beginning at 9 o'clock at the Plaza Restaurant, Lincoln Square.

Honorary memberships in the center were voted for the foreign exchange students, Mehmet Bayrum, Ana Maria Silva and Se-gridd Bach.

An appeal was made for adults and youths to serve on committees in connection with the operation of the center.

Jaycees Seek Rooms For Midget Gridders. The local Junior Chamber of Commerce is seeking rooms for 20 of the boys who will be here for the midget football game Saturday, September 15, under sponsorship of the Jaycees.

Lance Duttry, of the committee in charge, said 40 boys have been placed so far, but rooms are needed for 20 additional youths and about 10 adults accompanying them.

Persons who have a room in which two boys or adults can sleep Friday night, September 14, and possibly Saturday night, September 15, are asked to contact John Guise, Duttry said.

Dr. Tilberg Will Speak At Meeting. Dr. Wilbur E. Tilberg will speak on the preservation of wooden bridges and plans to develop "Old Dorm" at the seminary as a museum for the county at the meeting of the Gettysburg Numismatic Society Tuesday, September 11, at 8 p.m. at the VFW.

Edward L. Weikert, a member of the association will report on his attendance at the joint convention of the American and Canadian Numismatic Societies at Detroit. The session was the first joint convention the two organizations have held.

The auction committee has prepared a number of coins for an auction to follow the meeting. The session is open to the public, club officials said.

REPORTS ACCIDENT. Walter S. Barr, Jeannette, reported to borough police Thursday that it was his car which had struck a parked car on Chambersburg St. Wednesday night at 7 o'clock. Barr, according to the borough police report sheet, knew the driver of the other car and arranged to pay the damages. Police were called to the scene Wednesday night, but upon arrival found both cars had left the scene.

\$10,000 BAIL FREES BURGLAR

PHILADELPHIA (AP) — John C. Berkery, 27, sentenced to 3-to-6 years in prison for a Philadelphia burglary three years ago, is free in \$10,000 bail today pending an appeal to the State Superior Court.

Berkery, who also was convicted in an alleged \$475,000 burglary in Pottsville, was sentenced Thursday for the Philadelphia burglary by visiting Judge William I. Troutman of Northumberland County.

The judge denied a motion of Berkery's attorney, Benjamin R. Donolow, for a new trial before passing sentence. Troutman heard the case without a jury last Oct. 9.

Berkery was arrested on June 12, 1959, and accused of breaking into the yard of the American Business Systems, Inc., here along with Vincent Blaney, Blaney 29, also implicated in the Pottsville burglary at the home of John B. Rich in 1959, was murdered in August, 1960.

RETIREMENT

(Continued From Page 1) tient at the Warner Hospital here with a heart condition.

OVER 4 PCT. COST

DeFrank listed a number of alternate plans that the county may adopt under the state's Municipal Employees Retirement Board Plan, including programs in which the coverage would go back for 10 years, or other specified dates, or go back to give complete coverage to the oldest employee in time of service, who has been employed by the county for 43 years.

He said some counties, depending on the length of service of their employees, adopt a system covering only the majority of the employees, then pay a retirement out of county funds to the ones with the longest term of employment. Such a decision he said "should be made by the simple process of adding the costs involved and then deciding in favor of the plan that would be cheapest."

Cost of the plan annually runs "between four and five per cent of the payroll."

MUST CONTINUE PLAN

Adams County with a payroll of about \$225,000 a year, including all the elected officials and the clerks and other employees, would pay between \$9,000 and \$11,250 a year under the average plan of the state for municipal employee retirement.

To meet the "back payment," if it is decided to start the plan as of 10 years ago, or 20 years or more ago, the county could pay a lump sum, or make payments over a period of up to 30 years or more to cover the prior payments.

He warned that if the county joins the state program it would be required to continue in it.

HEAR 14 APPEALS

Wednesday at their meeting the commissioners gave approval to the work of renovation of the interior of the courthouse, including installation of a new vault in the register and recorder's office, enlargement of the register and recorder's office and renovations of several rooms in the basement.

They also heard 17 appeals from assessments. An additional 17 appeals are scheduled for next Wednesday and "that will just about wind up the appeals scheduled for this month," the commissioners said.

Before the commissioners Thursday was a request from the state Department of Highways that the county help pay damages in connection with contemplated changes in the existing width and lines of state highway Routes 190, 190-1 and 66005-2 in Hamilton Twp. and East Berlin. From the center of East Berlin the proposed work will extend north and south on Baltimore St. in that borough and west on its King St. for a total distance of just under two miles.

The changes will cost \$9,425 for utility relocation and property damages, the state said, in its notice to the commissioners, East Berlin on August 16 voted to pay \$1,000 toward property damages. The commissioners did not reach any immediate decision on whether to assist in paying the damages caused by the East Berlin street work.

Truck Hits Mail Box And Hedge

No injuries were received when a truck driver lost control of his vehicle on Route 34 four and seven-tenths miles north of Bendersville in Huntington Township at 2:45 a.m. Thursday, according to the Gettysburg State Police.

Police said Lester J. Warner, 52, Biglerville, was operating his truck south on Route 34 when it ran off the right side of the highway. The truck then crossed over

the highway to the left side, ran up a bank and returned to the highway. Damage to the truck was estimated at \$75. During his off-the-road ride, Warner's truck did \$50 damage to the mail box and hedge on the property of Paul Starner Jr., Gardners R. 2.

## U.S. OFFICIALS SOFT-PEDAL SOVIET SHOTS

By CARL HARTMAN  
BERLIN (AP)—American authorities today soft-pedaled the Soviet firing on a U.S. Army sedan in East Germany.

Soviet soldiers fired about 40 shots at a U.S. car that got too close to a Red military train Tuesday. Only one shot hit the car, and no one was hurt.

U.S. officers concealed the affair but it leaked out Thursday night. The Army in Germany still had issued no official information today, although the State Department released a sketchy account in Washington.

### UNCONFIRMED REPORTS

Army spokesmen said they could not confirm reports that Col. Ernest von Pawel, head of the U.S. liaison mission with the Soviet forces in East Germany, would make a protest to Gen. Ivan Yakubovskiy the Soviet commander in East Germany.

The car was an olive-drab sedan of the liaison mission stationed at Potsdam, a suburb in East Germany southwest of Berlin. Two U.S. officers in it were touring nearby areas of East Germany.

A well-informed source said the two officers encountered a Soviet train at a grade crossing. Soviet soldiers, apparently recognizing the car's big yellow license plates, opened fire.

Although the source admitted the officers had been observing the train, he insisted they were not in a restricted area and were fully within their rights. The source called the Soviet shooting irresponsible.

The secrecy thrown around the incident was designed to minimize its importance. American officials said, because the shooting had no connection with current tensions over Berlin. They said publication of the news exaggerated its importance.

## Metal Fragments May Be Off Sputnik

CAMBRIDGE, Mass. (AP)—The Smithsonian Astrophysical Observatory said today that a metal fragment found in Wisconsin on Wednesday was man-made, but it was unable to determine if it was from a Soviet satellite.

The 20½-pound piece of metal could be a fragment of the 10,000-pound Soviet Sputnik IV that apparently broke up after 27 months in orbit and disintegrated.

The North American Air Defense Command reported the satellite broke up in the earth's atmosphere shortly after a fiery show over Wisconsin's skies. The fragment was found in Manitowish Wis., and sent to Smithsonian.

The observatory here reported there were no markings on the metal that would give any clue as to what country it came from.

## Sentence Of 40 Lashes Suspended

WILMINGTON, Del. (AP)—A sentence of 40 lashes and 10 years in jail was imposed Thursday on Ellis W. Baines, 28, convicted in a \$4 robbery. But the sentence was suspended.

Superior Court Judge Stewart Lynch said Baines would be subject to the whipping and jail sentence if he breaks probation.

Delaware has not had a whipping under the law since 1952 when a man was whipped for beating a woman.

### "COME BACK TO ME"

Without the warm glow of your smile . . . my world is cold and gray . . . without the soft touch of your hands . . . I cannot make my way . . . without the understanding . . . that you alone can give . . . this life is without meaning . . . an empty narrative . . . without the sound of your sweet voice . . . so like a rhapsody . . . all I can hear within my heart . . . is a plaintive melody . . . these phrases hold the feelings . . . my heart wants to express . . . without you even roses . . . hold no tenderness . . . so I want you to come back . . . I need your loving charms . . . heaven waits for you, my dear . . . here in my open arms.

## 6 COMMITTEES

mena Motaka, leaders and the Mary Circle, Mrs. John S. Bishop, leader, will be hostesses during the fellowship hour.

The treasurer's report, read by Mrs. Richard Lighter in the absence of the treasurer, Miss Mildred Widder, revealed a gift of \$300 to the fund for a Lutheran home for the aging, bringing that total to \$851. The money was given by Mrs. John Ohler and daughter, Elizabeth, in memory of Mr. Ohler who died September 3, 1958. A gift of \$10 from the organization together with gifts of \$15 and articles of clothing from the Phoebe, Deborah, Esther, Priscilla, Hannah and Elizabeth Circles provided four layettes for migrant workers in the county when an appeal was issued by the Lutheran Inner Mission.

### ELECT DELEGATE

Mrs. Deardorff was elected a delegate to the constituting convention of the LCW of the Central Pennsylvania Synod to be held in Trinity Lutheran Church, Camp Hill, October 13, and Mrs. C. C. Culp was named alternate. Registration begins at 8:30 a.m., convention sessions at 9:30 a.m., a luncheon at the church at noon, sessions in the afternoon and a dinner with the men of the church in the Scotch Rite Temple in the evening. The luncheon will cost \$1.70 and the dinner \$3. Reservations may be made with Mrs. Calvin Schildknecht before October 1. Only one delegate will represent the women of each church in the synod, but all women may go as visitors.

Mrs. Willis Wherley, secretary, gave her report and the roll call. The Dorcas Circle, Mrs. Jack Settle, leader, and the Miriam Circle, Mrs. Pearl Wiser, leader, will sponsor a service at the Adams County Home for the Aged September 15.

## COOL WEATHER MOVING EAST FROM MIDWEST

By THE ASSOCIATED PRESS

Unseasonably chilly weather continued today from the Midwest into New England with lowest marks of the late summer season in some areas.

As the cooler air spread eastward and southward across the northern and central Atlantic Coast, temperatures dropped 10 to 20 degrees lower than 24 hours earlier. Readings in the coolest region from the Great Lakes and the northern Ohio Valley to the Atlantic Coast were mostly in the 40s.

The 30s were reported in parts of northern New England and in sections of the Appalachians. Lows included 29 in Bradford, Pa., 30 in Millinocket, Maine, and 32 in Old Town, Maine.

The mercury dropped to 41 in Milwaukee, tying the record low mark for Sept. 7. It also was 41 in northwest suburbs of Chicago. The 44 in Columbus, Ohio, was a low leading for the date. The 30s prevailed in the Middle Mississippi and southern Ohio Valleys.

Temperatures were near seasonal levels in most of the western half of the country. Warmer air from the South spread into the northern Plains, with the mercury reaching 90 Thursday in Philip, S.D.

Readings were in the 60s in most western areas, with 70s and 80s in the Southeast and to the mid-80s in the southwest Desert region. Light rain fell in areas from the Georgia coast through south central Texas. Thunderstorms were reported in Florida.

## SCOUTS TOLD

(Continued From Page 1)

sions of a "patch" or "neckerchief" to be awarded Scouts from the local district or council who will provide a required number of hours of service next summer in connection with the anniversary. Chairman Ritter appointed Dr. W. E. Tilberg, Attorney Edward B. Bulleit, Attorney Daniel E. Teeter and Melvin Wherley as a nominating committee to report at the annual dinner meeting of the district Scouters November 14. Crosby N. Hartzell, Donald Carver and G. Henry Roth were appointed as the dinner committee.

Plans were announced by District Field Executive Stanley C. Rogers for the annual tree planting contest held for the Scout units of the York-Adams area. Prizes of \$25 and \$10 will be awarded the two units arranging for the planting of the most trees. The contest closes January 15.

Rogers urged units to make reservations for winter camping at Camp Tuckahoe, noting that "we have for the last several years had more boys camped at Tuckahoe during the remainder of the year than the number encamped during the regular season. Of course that's easy to explain. The summer formal encampment lasts for seven weeks, leaving 45 weeks for unit camping."

### GIFT FROM CLUB

A report by Dr. Joseph H. Riley showed that the Optimist Club had donated \$35 toward purchase of a loud speaker system for the district and that \$40 is still owing on the cost.

The district committee formally voted its thanks to Merl Eisenhart and all others of the committees which arranged the Father-Son camporee last month at Camp Wolf Pit, near Aspers.

Chairman Ritter announced plans to attend the Region Three convention of the Boy Scouts at Washington October 12 and 13 and urged other Scouters to attend. A special invitation is given wives of Scouters to attend the regional meeting with their husbands, Ritter said.

### FOUND HIDDEN PILLS

Unconfirmed press reports said prison officials found a cache of pills concealed in Soblen's bed only five days ago.

Other papers said pills might have been smuggled to Soblen, whose meals were brought in from a restaurant near the prison.

Neither theory explained why the pills were not found during periodic searches prison officers made, or how Soblen managed to take a massive dose when he presumably was under close surveillance.

### ATTEND LAWN INSTITUTE

John Guise, manager of Zerfing's Littlestown store, and John Fissel, assistant manager of the Gettysburg store, have returned from a three-day session at O. M. Scott and Sons Lawn Council Institute at Marysville, O.

The institute covered the growing of lawn grasses of different types, weed control and disease control. Free lawn advice is available at both Zerfing stores.

## MISS MICHIGAN IS SWIM SUIT EVENT WINNER

By DORMAN CORDELL

ATLANTIC CITY, N.J. (AP)—The nation's beauty princesses were looking ahead today to the finals of the 1963 Miss America pageant with caution befitting a queen.

"I'm a little nervous," confessed Barbara Orr, Maine's representative. "because everything is going too smoothly."

"I think we all feel better after the opening rounds," said Miss Idaho, Irene Ammons. "The first night is the worst."

### 3RD ROUND OF JUDGING

But, for the most part, questions concerning chances of wearing the coveted glamor crown were being skirted with smiles and discreet silence.

For one thing, the 54 contestants faced a more immediate objective —reaching the semifinals. A third round of preliminary judging is scheduled tonight.

Semifinal and final rounds will be held Saturday night to be followed by the crowning of the country's newest dream girl at 11:50 p.m.

### WIN PRELIMINARIES

Carole Jean Van Valin, 21, a blonde from Michigan with measurements of 35-23-35, captured the swim suit honors in Thursday night's second round. Patrice Le Anderson, a lyric soprano from Hawaii, placed first in the talent division with a sparkling rendition of "Un Bel Di" from Puccini's "Madame Butterfly."

They joined Charlotte Ann Carroll of Mississippi and Pamela Gilbert of Illinois as winners of preliminary rounds.

### ANOTHER SINATRA

HOLLYWOOD (AP)—Frank Sinatra Jr., 18, makes his professional debut as a singer Oct. 2 on the Jack Benny television program.

Young Sinatra, a college sophomore and son of the famed crooner, will appear in a sketch with Benny. The show will be taped by CBS Sept. 23.

## Picnic, Football Game For Little Leaguers Saturday, September 15

A picnic and football game will take the place of the annual Little League banquet, it was announced Thursday evening at a special meeting of the Gettysburg Little League at the Elks' home.

With the approval of the board of directors, the program committee, under the chairmanship of G. Noel Flynn, decided to hold a picnic for all Little League players, coaches, managers, directors and special guests. The picnic will be held at the Recreation Park on Saturday, September 15, at 5 p.m. Following the outing, everyone will be invited to attend the Pop Warner football game on the high school field at 8 o'clock. The game is being sponsored by the Junior Chamber of Commerce.

During the remainder of the month all equipment will be turned in to Dick Smith for storage over the winter months. Each manager is to collect all his equipment and set a date with Smith to store it. Any repairs and replacements will be made during the winter to avoid last minute ordering next spring.

**STORE EQUIPMENT**  
It was reported that the fence has been taken down at the Little League diamond and stored until next season as well as all equipment in the storage box at the field.

The board expressed its appreciation to the following for donations of baseballs during the season and to all others who helped to make the season such a success: Allen McDonnell, Joe the Motorist, Mares Sherman, Central Chemical Corp., Gettysburg Construction Co., Larson's Motel, Hetrick's Atlantic, Town and Country Gas, Richard Warren, Western Auto and National Heritage Association.

President Bob Kenworthy presided at Thursday's meeting which was well represented by all teams.

## Two Local Ponies High In Standing

High point horses and ponies in the Maryland-Pennsylvania Horse Show Circuit have been announced by Mrs. W. I. Braithwaite, Shepherdstown, W. Va., association secretary.

Point standings have been compiled from 10 shows held on the circuit so far this year. Five more shows are scheduled into October. Pet, owned by LeRoy H. Winebrenner, Gettysburg, is tied for top honors in the Pony Headliner Class, and Top Notch Lancer, also owned by Winebrenner, is among the other top point ponies.

## DAC Holds Opening Meeting On Monday

The Daughters of the American Colonists will hold their first meeting of the year Monday evening, September 10, at the home of Mrs. John Gentzler, East Berlin. A board meeting at 7:30 p.m. will precede the 8 o'clock meeting.

Miss Sue Ella Harper and Miss Beatrice Pfeffer will be in charge of the program: William Penn, A Colonial Leader.

Hostesses, besides Mrs. Gentzler, are Miss Beulah Wentz, Mrs. George Ditchburn, Mrs. W. E. Garman Jr., Mrs. John Mumper, Miss Mary Walker and Miss Betty Diehl.

## 3 County Grid Teams Start Play Tonight

Thousands of fans are expected to take advantage of the promise of almost perfect football weather tonight when they will watch their favorites blast off the lid to the 1962 scholastic season.

Three county teams will see action in game tonight at 8 o'clock and all will be backed by big delegations of fans.

Don Young's Gettysburg High Warriors travel to Westminster to meet the always-rugged Owls and have high hopes of snapping the eight-game winning streak the Marylanders have compiled in the series, starting in 1954. Overall Westminster leads 8-5 in the 13-game series. It was announced today the game will start at 8:30 instead of 8 o'clock.

Littlestown, under its new coach, Bill Heyser, takes on York Suburban, defending Laurel champs, in a conference game on the Thunderbolt's gridiron. Suburban has a 14-game winning streak extended back to midway in the 1960 campaign.

Unquestionably the largest crowd will be at Hanover where the Nighthawks take on Delone of neighboring McSherrystown. The Hawks enjoy a 20-2 advantage in the series.

Bermudian Springs meets Northern at Dillsburg Saturday afternoon at 2 o'clock.

Eastern League

By THE ASSOCIATED PRESS

With only three days left in the season, Ken Harrelson needs one more home and four more RBIs to set records in the Class A Eastern League.

Binghamton's first baseman slammed his 34th and 35th homers Thursday night to tie Don Lock's 1960 record. He also drove in four runs to boost his total to 131, three shy of Dale Long's record in 1950.

To set the records he will have to step up his season's pace. He has been hitting homers at the rate of one every 3.6 games and has batted in just under one run per game on the average.

Harrelson's blows made the difference in both games Thursday night as the Triplets took a doubleheader from Springfield 1-0 and 5-2. Rookie Ron Tompkins (1-1) pitched the shutout, first by a Triplet pitcher this season.

York beat Williamsport, 3-2, on Russ Gibson's solo homer in the ninth.

## GIANTS BEAT L. A. AGAIN AS REDS MOVE UP

By MIKE RATHET

### Associated Press Sports Writer

Three weeks ago San Francisco Manager Al Dark tagged slugger Orlando Cepeda with a \$50 fine for failing to run out a grounder.

Thursday night Cepeda walked to first base. And Dark smiled. For Cepeda, on a hitting rampage since he was both fined and benched on Aug. 19, was walking with the bases loaded in the ninth inning, driving in the tie-breaking run that propelled second-place San Francisco to a 9-6 triumph over National League leading Los Angeles.

#### BRVES, BUCS LOSE

Cepeda's walk on a 3 and 2 count forced in Chuck Hiller with the run that snapped a 5-5 tie. Harvey Kuenn then followed with a three-run double off Ron Peranowski, clinching the victory that moved the Giants to within 1 1/2 games of the Dodgers.

The Dodger defeat also enabled idle third-place Cincinnati to climb to within 4 1/2 games of the top. In the only other games scheduled, St. Louis belted Milwaukee 7-1 and Houston edged Pittsburgh 4-3.

#### TIED IN FOURTH

The Giants got to 23-game winner Don Drysdale for two runs in the first on Felipe Alou's run-scoring double and a run-producing single by Willie McCovey. They made it 4-0 in the third on Cepeda's bases-loaded single. The Dodgers struck back in the fourth, tying it on an error by Alou that enabled Jim Gilliam to score.

Tommy Davis' RBI single and a two-run homer by Frank Howard Kuenn put the Giants back in front in the eighth, driving in Alou, but Tommy Davis' homer in the last half of the inning again tied it.

Ernie Broglio (11-7) scattered nine hits while batterymate Gene Oliver supplied the punch for the Cardinals with a two-run homer and a run-scoring single in a five-run eighth inning uprising. Oliver's homer in the seventh came off Braves' rookie Denny Lemaster (1-4).

The Colts scored three runs in the ninth to beat the Pirates as rookie Dave Roberts drove in the tying and winning runs with a pinch-hit double—his first major league hit. Bob Aspromonte batted in the other Houston runs.

## OSUNA BEATS REED IN LONG COURT FIGHT

By ED CORRIGAN

### Associated Press Sports Writer

FOREST HILLS, N.Y. (AP)—Rafael Osuna, a soft-spoken Southern California senior, is trying for all he's worth to concentrate on winning the National Tennis championship but his mind keeps wandering to Mexico City a month from now.

Then Osuna and his teammate, Antonio Palafox, will form the Mexican team that meets Sweden in the interzone Davis Cup semifinal. The winner will only have to beat India for the right to play Australia in the challenge round.

"It's pretty hard to compare conditions down there with those here," said Rafael. "Everyone talks about the high altitude there and they're right. I come from there and I need at least three weeks practice to get in the swing. The foreign players can find it very hard. The ball really keeps flying when you hit it. If we ever had grass courts there, the ball would keep going forever."

#### WINS LONG BATTLE

Rafael 23, won a long battle from Whitney Reed of Alameda, Calif., 11-9, 6-4, 5-6, 3-6, 10-8. Thursday to advance to the fourth round. Fourth-seeded Osuna had plenty of troubles on the way, but he finally pulled it out.

Three other seeded players didn't make it, though. In the big test reversal in the men's division, Vic Seixas, 39, a seven-time United States Davis Cupper from Villanova, Pa., ousted Jan-Eric Lundquist of Sweden, seeded No. 6, 6-4, 6-3, 6-3. In the women's division, Vicki Palmer, 17, the National Girls Junior champion from Phoenix, Ariz., downed Wimbledon queen Karen Hantze Susman of San Diego, Calif., seeded No. 2, 6-2, 3-6, 6-3.

Margot Dittmeyer of Germany scored the third upset when she eliminated sixth-seed Renee Schuurman of South Africa, 6-4, 4-6, 6-1.

Both the women's matches were third rounders.

Charleson's Pete Olsen (10-6) shut out Elmira 2-0 with a 2-hit Bob Chance's double drove in Charleson's only earned run.

## Pastor Urges Living Under Spirit Of God

By REV. DR. PAUL L. REASER  
Pastor

**St. James Lutheran Church  
LED BY THE SPIRIT OF GOD**  
Romans 8:14, "For as many as are led by the Spirit of God they are the sons of God."

Is it possible in our day to be led by the Spirit of God? Under the pressures of our business life, our political life, our social life, is it possible that a person can seek and find and depend upon the guidance of His Spirit? Is this a desired but unrealistic ideal? Is this something religious people talk about but no one actually believes it or tries it?

Paul Tillich, one of the great Christian thinkers today, has pointed out what seemed to him are two chief characteristics of Jesus:

1. Jesus had an unbroken unity with God. "I and the Father are one. Believe that I am in the Father and the Father in me?" He experienced a continuous fellowship with the Father.

2. The second characteristic pointed by Dr. Tillich is Jesus' complete renunciation of any personal advantage of that unbroken unity for Himself. The Son of man had not where to lay His head. The power given to Him was used to redeem others, to heal the broken bodies, to forgive their sins and to restore them to a right relationship with God.

**"UNBROKEN UNITY"**

We may ask how did Christ accomplish and maintain this unbroken unity with God. The answer is evident in the Gospel records, first by drawing apart from the world periodically. When a lad of 12 years, He was so concerned about the things of God that He had stayed in the temple of Jerusalem talking with the religious leaders rather than returning immediately with His family to Nazareth. After His baptism at the Jordan River, Jesus withdrew into the wilderness where He spent many days in meditation and prayer. After the

(Continued On Page 12)

feeding of the multitude, we are told that He withdrew into a quiet place to be alone. This practice of drawing apart was apparently very important to Him. In the second place, Jesus saturated Himself with the Holy writings of the Prophets. When Satan came to tempt Him in the wilderness, Jesus countered his onslaught by quoting from Holy Scriptures. Again, when the risen Christ walked with the two men on the road to Emmaus, He entered into conversation with them, revealing to them out of the Scriptures how that Christ must suffer and die and be raised again. One can not think of Jesus' life and ministry apart from the teaching of

the Old Testament.

In the third place, Jesus maintained this unbroken fellowship with the Father by deliberate choice on His part. His declaration, "My Father worketh hitherto, and I work," John 5:17. In the Garden of Gethsemane, Jesus made a decision, "Father if it is possible, take this cup from me. Nevertheless not My will but Thy will be done." Matthew 26:39. This reflects Jesus' decision to make the Father's will His own.

What does all this mean for us today? It is not easy to let God lead. We are too eager to live as we wish, to do what we want to do, to go where we prefer to go. Yet it is possible to bring oneself

unto the guidance of the Spirit of God. This is demonstrated by a man who today is a radiology specialist, also the father of eight children, but who finds time to participate in two prayer and Bible study groups. One of these meets every Sunday night in the homes of the seven couples who make up the group. The other is a group of a dozen business men who meet for breakfast once every two weeks and who spend most of their time in a period of Bible study and prayer.

### OTHER EVIDENCE

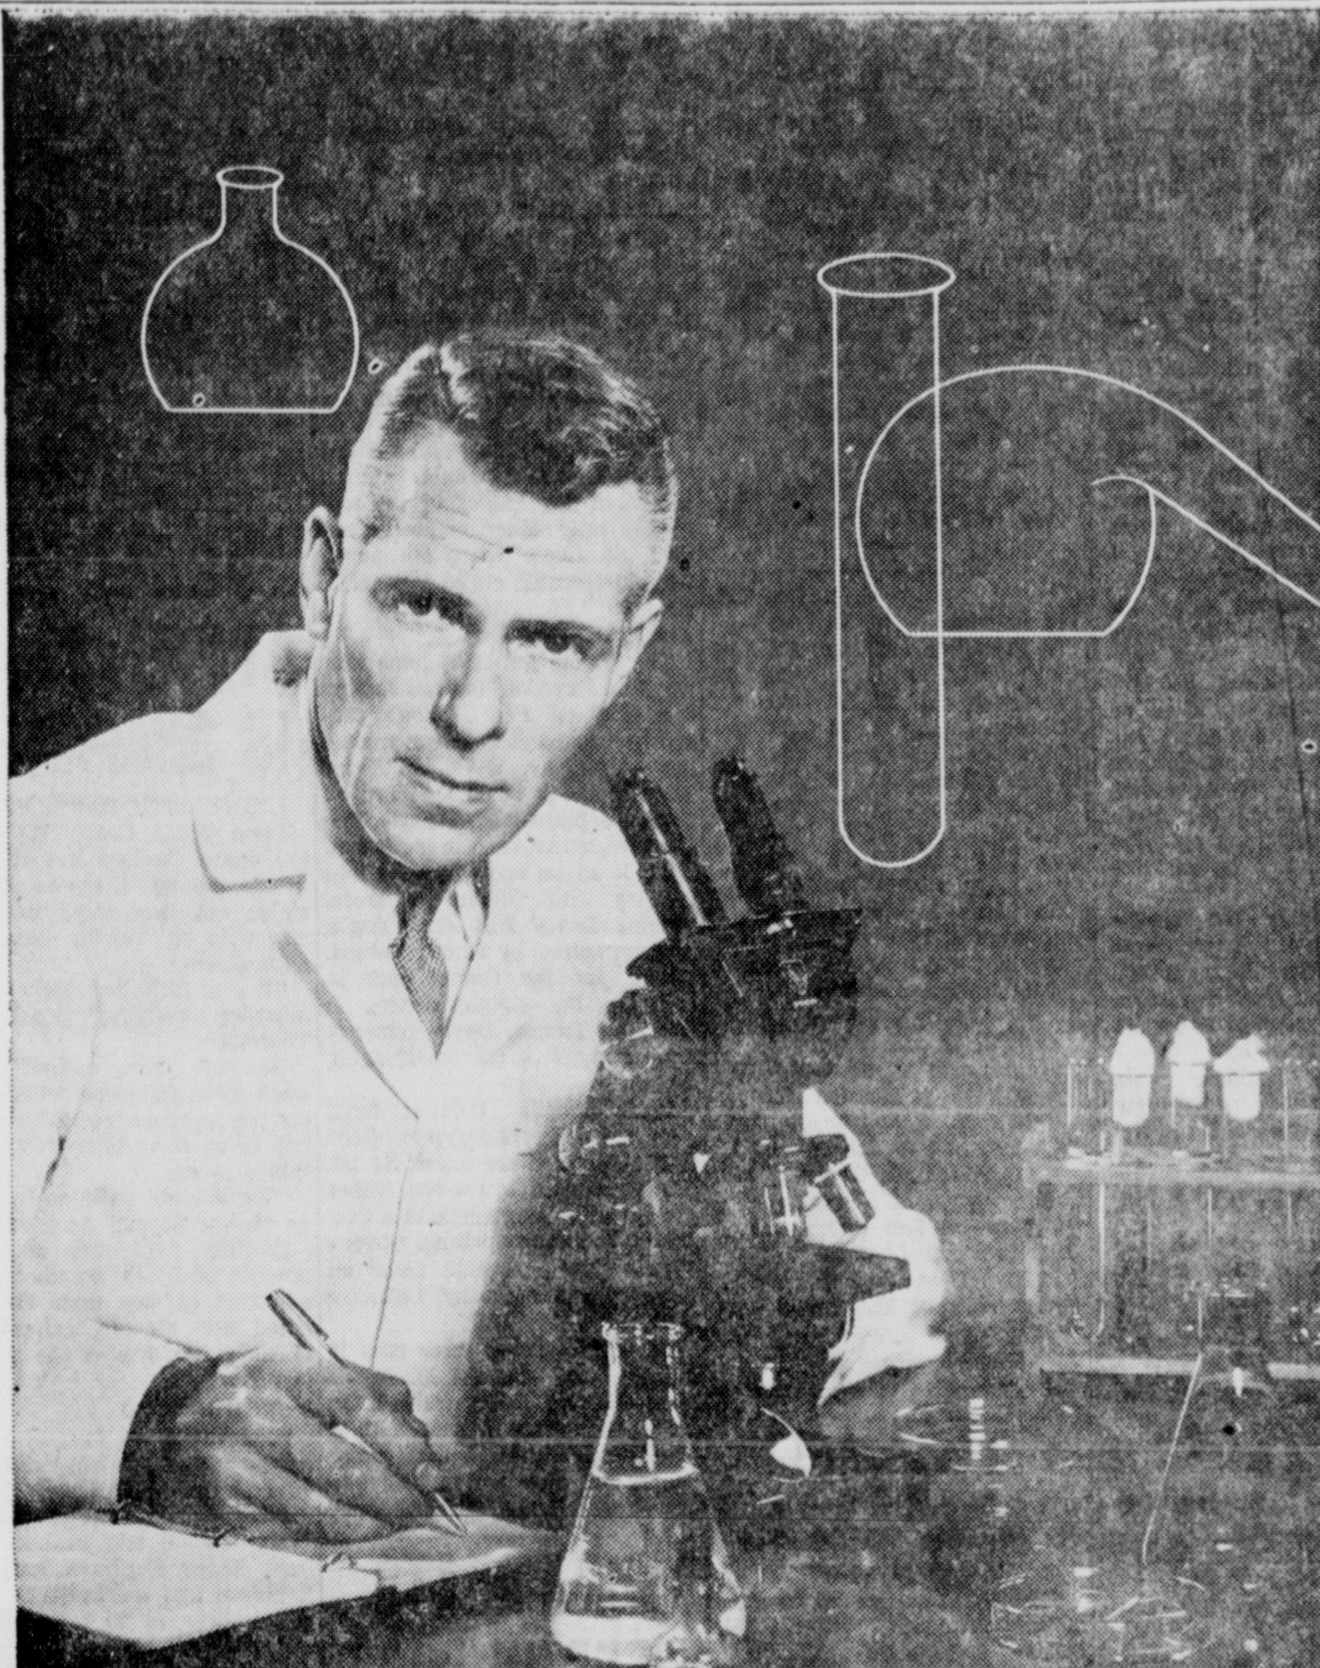

I know another man who is a roofing material engineer. He not only is active in his church but seeks opportunities to talk to men

about Christ, about the church, about prayer.

Or, here is another, a farm animal state inspector whose occupation takes him all over the state of Maryland, but whose primary interest is in helping others, especially alcoholics through the therapy of bringing them into a personal relationship with Christ and with small groups who major in Bible study and intercession.

A very important step in being led by the Spirit of God is to take one step at a time as He may direct without being anxious about what the next step may be. Jesus said, "If any man will do his will, he shall know" (John 7:17). Obedience opens the door to great

er knowledge of God's will. Take one step as directed and God will show you the next. A young girl, two years out of high school, had thought it impossible for her to continue her education. This summer when an opportunity opened for her to begin her college education, she accepted even though she does not see her way entirely clear to pay all her expenses. Believing it is God's will for her to begin this work, she has registered and is trusting God to open up the way further as the months go by. Such, said the Apostle Paul, are the true children of the Heavenly Father. "For as many as are led by the Spirit of God they are the children of God."

# LIFE'S LABORATORY

Have you ever thought of your life as a laboratory? There are no test tubes and no scientific textbooks to aid us in our study, but we've been given other aids more important still. We call them God's formulas for living.

**ARE WE AFRAID?** Then we may test the Christ-given formula, "Be not afraid, only believe."

**ARE WE LONELY?** Then we reach for the promise of the Lord, "And lo, I am with you always..."

**DO WE DOUBT THAT GOD CARES?** Then we can analyze for ourselves the message of the Christ, "God so loved the world that He gave His Son..."

These are only a few of the formulas for our lives.

To test them we must first know them. The Church is ready to teach. We shall need direction also. The Church offers us the help of consecrated pastors and leaders.

Let's go to Church and learn the transforming power of God's formulas in the laboratories of our lives.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## ARGUMENT ON DEMARTZ KEEPS GOING

HARRISBURG (AP)—A Carbon County man mentioned in a speech by President Kennedy has sided with the Democrats in a political argument begun by Republicans over his working record.

George DeMartz of Juniata said Thursday that Rep. James E. Van Zandt was wrong and that Kennedy and Gov. Lawrence were correct about his previous employment as a miner and retraining as a specialty welder.

Van Zandt, Republican candidate for the U.S. Senate claimed Kennedy gave Kennedy "gross misstatements of fact" about DeMartz for use in a nationwide address last Aug. 14.

**EXCHANGE CLAIMS** Van Zandt began by claiming the Democrats even had DeMartz's name wrong, calling him George Demont.

The Democrats didn't explain that one, but in his statement Van Zandt also erred by not capitalizing the "M" in DeMartz.

Van Zandt also claimed that DeMartz never worked in a mine in his life and that the Democrats misused the retraining program by giving him instructions as a welder when he already had been

## ALTERED TAX BILL EXPECTS SENATE OKAY

WASHINGTON (AP)—The Senate appeared ready today to pass a watered-down version of the bill which would permit self-employed persons to set up tax-deductible private pension funds.

Such legislation has cleared the House in the last three Congresses. But the previous measures died in the Senate, opposed by both the Eisenhower and Kennedy administrations.

However, the latest bill which passed the House last year was called up for Senate debate Thursday with its sponsors claiming ample votes for passage.

**ADOPTED AMENDMENTS** Even so, it still would have to survive a conference with the House in the adjournment rush and win President Kennedy's approval to become law.

The Senate adopted two major amendments Thursday which reduced sharply the effect of the legislation. Sen. Russell B. Long, D-La., co-sponsor of one of the amendments, said he was confident it made a Kennedy veto less likely.

Under the House version, self-employed persons could put up to 10 per cent of their income into a tax-deductible pension plan with a maximum set aside of \$2,500 a year.

**TAKES ANOTHER CHOP** The Senate Finance Committee last September revised this to fix a \$1,750 ceiling. The first \$1,000 would be deductible but only half of the next \$1,500.

The effect of this was to cut down the estimated revenue loss in the House bill from \$365 million to about \$200 million.

Long's amendment chopped this to about \$100 million by providing that only half of all the money put into the plan could be deducted; this would establish a \$1,250 annual limit.

Long argued that this would treat the self-employed the same way as ordinary employees fare for pension purposes.

Sen. Eugene J. McCarthy, D-Minn., then won adoption of an amendment aimed at abuses in owner-manager pension plans. It would subject them to the same limitations as the self-employed must observe under the pending bill.

The Treasury long has contended that owner-managers often set up dummy corporations to obtain pension deductions for tax avoidance purposes.

a welder DeMartz, contacted at his home, said he had worked as far down as the fifth level in the anthracite mines in the Hazleton area "and if that isn't working in the mine I'd like to know what is." He added that he worked both as a miner and as an acetylene welder.

# Trucks Prove Highway's "Hottest" Vehicles As Radar Checks Demonstrate

(Editors' note: The "hottest" vehicles on our highways today, particularly the expressways, are trucks. Passenger cars, on the other hand, appear to be slowing down. These are observations made by Traffic Safety Commissioner O. D. Shipley in a speed survey reported in a two-part series by The Associated Press newsmen who accompanied him.)

By FRED WALTERS  
HARRISBURG (AP) — Truck traffic generally is ignoring the posted speed limits on Pennsylvania's highways.

Passenger car traffic generally is obeying them.

These are two conclusions drawn from radar-checked speed surveys on express highways in central and eastern Pennsylvania this summer.

The conclusions are those of O. D. Shipley, the state's commissioner of traffic safety.

## SET UP SURVEYS

Shipley accompanied by an Associated Press newsmen, set up the speed surveys on two different days and nights.

The surveys had started as a project to demonstrate radar's operation on the highways.

The results — the pattern of speeding that has developed on the highways — were unexpected.

They began on the York Expressway on the northbound (toward Harrisburg) lane, about a mile north of the Pennsylvania Turnpike interchange.

## SPEED LIMIT

The speed limit drops from 60 miles per hour for passenger cars and 50 miles per hour for trucks to 50 miles per hour for all vehicles about halfway up a steep hill just north of the turnpike interchange.

The time was approximately 6:30 a. m. The road was filled with traffic carrying people headed for the Harrisburg area and work. The radar was set up about one-half mile beyond the crest of the hill.

In 20 minutes, 122 vehicles were checked and 88 — 72 per cent — were above the 50 miles per hour limit. Twenty-one of them were trucks and only one-third of the trucks were speeding.

## DIFFERENT STORY

Later in the day, however, it was a different story.

On the Pennsylvania Turnpike, a few miles east of the Blue Mountain interchange, the radar was set up off the eastbound lane.

It had been raining and the wet highway glistened.

Ninety-eight trucks were picked up by the electronic beam scanning the highway; 65 of them — 66 per cent — exceeded the 50 miles per hour limit. There were 264 passenger cars checked and 72, or 27 per cent, exceeded the 65 miles per hour limit for them.

## BUSES SPEED

Two buses went by at 66 miles per hour and one at 68 miles per hour. Buses are permitted the same speed as passenger vehicles.

The weather had started to clear and the roadway was dry when Shipley parked his dark station wagon along the southbound lane of the York Expressway, several miles south of the turnpike interchange, and hung the spotlight-like radar transmitter on a side window.

The beam picked up 58 trucks and 246 passenger cars. The speed limit there is 60 miles per hour for passenger cars and 50 miles per hour for trucks.

Thirty-five trucks were checked above the speed limit, or 60 per cent of that class; 40 passenger cars were over the limit, or 16 per cent.

In the hour we were there, one bus passed at 66 miles per hour and another at 64. That was the only bus traffic.

## NEXT CHECK

The next check was set up on U. S. 22, a four-lane highway, about 15 miles east of Harrisburg. It was late afternoon and home-bound traffic from the cap-

ital was just beginning to turn from a trickle to flood. It was clear, hot and dry.

In an hour's time, 356 passenger cars and 78 trucks passed by the eastbound lane, where the check was made. Only 31 passenger cars — less than one per cent — exceeded their 60 miles per hour limit; 43 trucks, or 55 per cent, were above 50 miles per hour, their limit.

For a final survey, this one at night, Shipley moved east on U. S. 22 and parked his car on a little-used overhead bridge about 20 miles west of Allentown, where the radar beam was aimed directly down the highway coming down a long straight stretch of road at the foot of a long hill.

## MOONLIGHT NIGHT

It was a clear, moonlit night, just a trifle on the cool side.

In the first hour, 90 trucks and 73 passenger cars were checked. Seventy-one of the trucks — 79 per cent — and 11 of the cars — 12 per cent — were over the limits (50 and 60 miles per hour, respectively).

After that, the passenger car traffic began to dwindle to almost nothing and long rows of brightly-lighted trucks roared through the valley.

The trucks were checked for three hours. There were 327, and 277 of them — 85 per cent — were over the speed limit. In fact 99 — 30 per cent — were checked at 60 miles per hour or better.

Two buses passed by during the night — one at 56 miles per hour and the other at 62.

"There's one conclusion you can draw from these," Shipley said later, reviewing the charts in his office here. "Our truck drivers generally are prone to ignore the posted speed limits on Pennsylvania highways."

"On the other hand, these are some of the lowest passenger car speeds developed I've ever seen in 11 years of surveys. I think that radar, our suspension system, our whole program in general have succeeded in slowing down our passenger car speeds."

## NAPLES GIVES WILD WELCOME TO JOHNSON

NAPLES, Italy (AP) — Vice President Lyndon B. Johnson brought his goodwill tour to Naples Thursday and won the warmest, wildest welcome of his Italian stay.

Neapolitans by the thousands lined the streets of this colorful southern city that has sent millions of immigrants to America. The crowds cheered, chanted, applauded, waved and shouted.

In a speech at the Naples airport, Johnson hailed the city as "a gateway for Americans coming to Italy and Europe and a gateway for Italians going to America."

## LONG-LOST SON

Unlike Rome, which gave Johnson a polite but casual welcome when he arrived Tuesday, this city of 1,250,000 greeted the American vice president like a long-lost son.

Johnson, who last visited Naples as a congressman in June 1945, greeted Naples like a man coming home.

At the U. S. consulate, overlooking the sun-spangled Bay of Naples, Johnson, perspiring in the summer sun, told a group of 250 Italian immigrants preparing to leave for the United States:

## THRILLING EXPERIENCE

"This is one of the most genuine and thrilling experiences of my life. You don't know how happy I am, how humble I feel to come here to Naples."

Scores of Italians, tears in their eyes, pushed and pressed against the vice president, calling out phrases like "I have seven children in America," "God bless your country—my daughter lives there."

At the end of Johnson's brief speech, a young dark-haired beauty came to the platform and tried to kiss him on the cheek.

From the consulate, Johnson drove along the long Naples waterfront and visited a shipyard, where he shook hands and chatted with workers.

The vice president's 15-day overseas mission neared a close. He leaves for the United States Friday.

## KENNEDY WILL VISIT SPACE INSTALLATIONS

WASHINGTON (AP)—President Kennedy will inspect four military and civilian space installations next week.

In announcing this the White House said Wednesday the President's aim is "to study the work being done in this most important area and in connection with the reparation of the fiscal year 1964 budget."

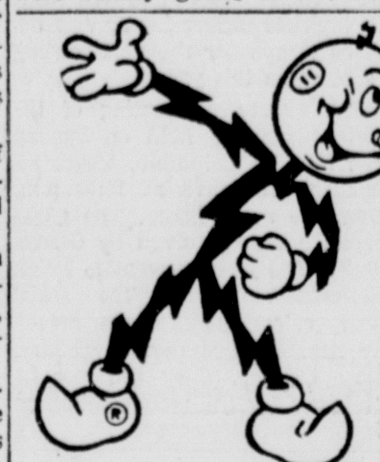

The man who has charge of whipping that budget into shape, Budget Director David E. Bell, will be in the group accompanying Kennedy.

Others going along include Vice President Lyndon B. Johnson, chairman of the National Aeronautics and Space Council; Secretary of Defense Robert S. McNamara; and James E. Webb, administrator of the National Aeronautics and Space Administration.

Kennedy will leave Washington early Tuesday. His first stop will be Cape Canaveral, Fla.

Kennedy then will fly to Huntsville, Ala., to inspect the George C. Marshall Space Flight Center. At the center work is being done on the Saturn booster on which the United States has its moon exploration hopes pinned.

The President will spend Tuesday night at Houston, Tex., home of the new manned space flight center and then go on to St. Louis, Mo. and the McDonnell Aircraft Corp., which produces the Mercury space capsules.

## Expert Sees No Easy Path To Settle Cuban Problems

By BEM PRICE  
AP Military Affairs Writer

WASHINGTON (AP)—The infusion of Soviet military equipment has made Cuba a major pawn in the cold war.

No longer is it just a Western Hemisphere problem. It has an explosive potential embracing the entire system of U.S. alliances.

If the United States should take military action to remove the Cuban thorn—and three senators have recommended it—the price would be far higher than many would suspect.

### SOVIET TACTICS

Further, the United States would be accused of using the same tactics it condemns when used by the Soviet Union.

If the nation permits Cuba to continue unmolested, then Cuba becomes an ideal training ground for Latin-American guerrilla forces which could undertake what Soviet Premier Khrushchev calls "wars of liberation."

There is no doubt that the United States could clean house in Cuba—if the nation would be willing to pay the price.

### 3-YEAR INDOCTRINATION

The Communist regime of Fidel Castro has had three years in which to indoctrinate, train and equip an armed force variously estimated at between 250,000 and 300,000 men. These men are well equipped with former U.S. weapons and Soviet bloc arms.

Further the presence of 3,500 Soviet technicians would provide a stiffening force for the Cubans. These men undoubtedly would operate the anti-aircraft missiles they brought with them.

A successful U.S. landing in Cuba and the destruction of Cuban armed forces would require far more than a few Marines.

### BLOCKADE PROBLEM

If the United States is willing to stop all ships, including those flying the Soviet flag, by seizure or sinking, if necessary, then Cuba could be blockaded.

Military action against Cuba easily might set off a chain of Communist pressures against the United States and her allies in Korea, Southeast Asia, Berlin, the Formosa Straits and the Middle

## COOL WEATHER SETS RECORDS IN SOME AREAS

By THE ASSOCIATED PRESS

Chilly weather spread across broad areas in the eastern half of the nation Thursday, with temperatures dropping to record lows for the date in some northern areas.

### NO SIMPLE ANSWER

In brief, a military solution to the Cuban problem is not a simple one.

Undoubtedly, Cuba is becoming a mecca for dissident elements throughout Latin America.

The unrest in Latin America could be a fertile field for exploitation by Communists native to the Western Hemisphere.

If Castro communism spreads, the whole of Latin America could be thrown into a turmoil, afflicted with bloody revolutions, counter-revolutions and wars.

The Communist technique of nibbling at the free world until the United States is isolated would be one more step nearer fruition.

And therein lies the danger to the United States.

## BOLMAN QUILTS AS F&M HEAD

PHILADELPHIA (AP)—The Franklin and Marshall College board of trustees has accepted the resignation of Dr. Frederick deWolfe Bolman as president and named Lancaster attorney Anthony R. Appel to succeed him.

The board also offered Bolman a position as consultant to the Lancaster institution until he secures another position.

The change was announced Wednesday by board president William A. Schnader following a special executive meeting here.

### REASON STATED

A trustee who declined to be named said Bolman's resignation after five years as president resulted from "irreconcilable differences between the president and the chairman of the board of trustees." He did not elaborate. Bolman, whose \$25,000 salary

Lowest readings were in the north central region but unseasonable temperatures extended eastward through the Ohio Valley and into the Northeast. The chilly air was expected to extend along the Gulf and Southern Atlantic Coast.

It was freezing in parts of Michigan with a 31 reading in Pellston, while Marquette reported one degree above freezing.

### RELIEF IN PLAINS

Some relief from the late summer cool snap was reported in the northern Plains and Rocky Mountain region, with temperatures about 10 degrees higher than 24 hours earlier. The slow warming trend was expected to spread through the Mississippi Valley and Upper Great Lakes regions.

The mercury dropped to 41 in Milwaukee early Thursday, breaking the record low of 43 for Sept. 6, set in 1885. Temperatures generally were in the 40s in the Midwest.

Fair weather prevailed in most parts of the country.

WICHITA FALLS, Tex. (AP)—Telephone company employee Terry Turner was installing an extension phone in offices of the Red Cross blood bank Wednesday when a nurse ordered him to remove his coat.

Though surprised, he obliged and followed instructions to roll up his sleeve and lie on a bed.

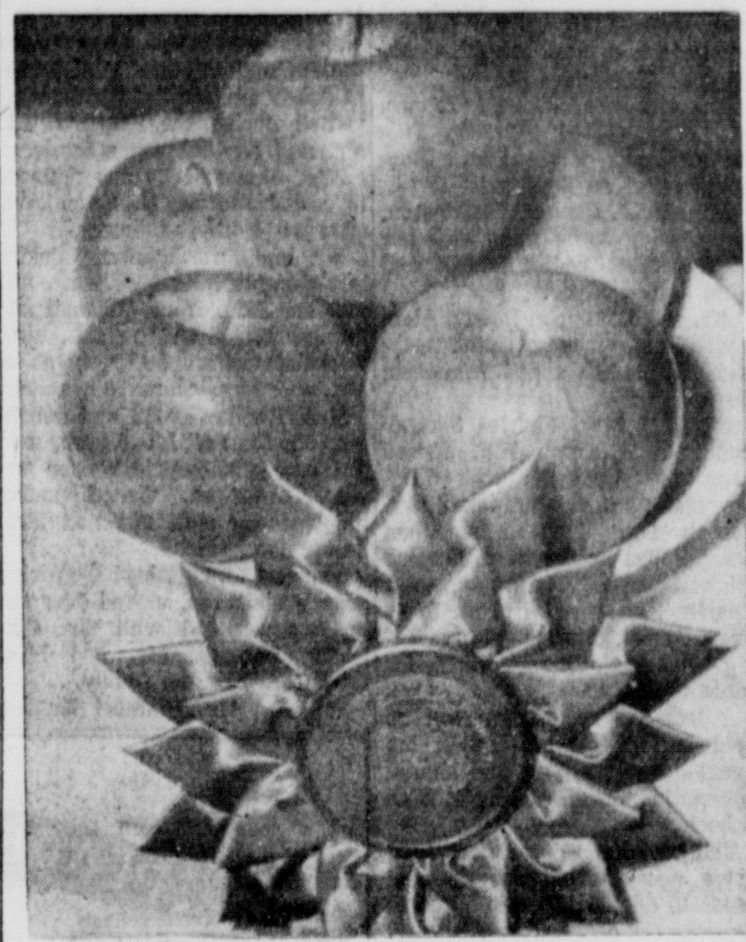

Turner soon was short one pint of blood.

The director of the blood bank, George Clevenger, later remarked: "Well, we really were short of blood."

A familiar sight at the fair are thousands of farm products each bearing the appropriate ribbon signifying its placing in the judging. Here's what every fruitgrower is looking for—the champion apples.

## U.S. Not Saying How It Got Data On Red Failures

By VERN HAUGLAND

WASHINGTON (AP)—U.S. space officials who reported the Soviet Union made unsuccessful attempts to send spacecraft to Mars and Venus aren't saying how they got their information. But other scientists say this form of space spying isn't too tricky.

The National Aeronautics and Space Administration Wednesday said that the Soviet Union has failed in five out of six tries to send probes to the two planets. And the sixth try was only a qualified success because its radio transmission died far from Venus, said the agency.

Moscow has not made public any space mistakes so how does NASA know about them? Apparently the Soviet space technique is at least part of the tipoff.

### EASY TO DETECT

NASA said the Soviet scientists used a parking orbit in each of their six planet probes.

This means a three-stage booster is used to put the spacecraft in a low orbit around the earth. When the spacecraft is in alignment with its target planet—Mars or Venus—a fourth stage would fire, hurling the spacecraft toward its destination.

Scientists said the restarting of the engine in the parking-orbit method is fairly easy to detect when a satellite is being tracked in orbit.

And when a "re-lite" is attempted on a Soviet vehicle it clearly indicates an attempt to send the vehicle on a deep probe—especially if Mars or Venus is in a favorable alignment.

### JAMMING UNLIKELY

When the re-lite attempt fails the trackers can determine whether the rocket is tumbling over or is breaking up and re-entering the atmosphere.

Another question raised relative to space espionage is whether Soviet electronic equipment being delivered to Cuba could be used to jam equipment at the big launching base at Cape Canaveral, Fla.

Informed sources said it is unlikely jamming could be successful of the existing Allegheny tunnel, is 1963.

fully achieved from Cuba or that activities at the Cape would be seriously hampered.

Because of the danger that a stray signal might blow up a rocket or accidentally launch one the launching systems have been carefully coded.

To interfere with a launching, the hostile party would have to know the secret code.

Dr. Dana L. Farnsworth, a psychiatrist and director of Harvard University's Health Service, says about 10 per cent of all students on the nation's college campuses need psychiatric help each year in resolving their emotional problems. Writing in the journal of the American Medical Association in Chicago, Farnsworth suggested that staffs of college health services include psychiatrists.

James E. Ellis, 20, escaped from the house of correction at Sykesville, Md., and flagged down a car. The driver who stopped for him was a patrolling state trooper. "Get in," said the trooper. "We've been looking for you." Said Ellis calmly: "I'm glad you came by. It was cold out there."

## Young People Seek Active Church Role

By JULES LOH  
AP Staff Writer

By whatever name — Luther League, Royal Ambassadors, Westminster Fellowship — the young people's group is a fixture as firmly established in most Protestant denominations as the board of trustees.

Such organizations provide teenagers with opportunity for wholesome entertainment, as their parents so often say, a chance to meet good Christian boys and girls. The groups also can be useful. The kids wash cars and mow lawns to help out with the church debt, or perhaps serve as baby sitters to help boost attendance at evening services.

Recently the youth organization of the United Church of Christ met and, while adult moderators nodded approvingly, voted itself out of existence.

### BEING SHUNTED ASIDE

According to the Rev. Henry Tani of Philadelphia, the denomination's youth work secretary, the young people felt they were being shunted into a neat little compartment with little relationship to the rest of the church.

"The adults give the kids money for a juke box and a youth center and tell them to stay there, don't bother us," the Rev. Mr. Tani said. "Then they wonder why the young people leave the church."

In some cases, said the Rev. Mr. Tani, the youngsters felt they were even competing with the church.

### MERGED INTO ONE

In place of the Pilgrim Fellowship of the Congregational Christian Church and the Youth Fellowship of the Evangelical and Reformed Church — the youth groups of the two denominations which merged in 1957 to form the United Church of Christ—there now will be one "Youth Ministry."

Its objective: "To make the whole church sensitive to the special needs and concerns of young people, (and) to make the young people sensitive to the whole church, to other youth, and to the world."

### ACTIVE AS POSSIBLE

To show they mean business, the youngsters already have discarded the annual convention—which in the view of these young people sometimes was little more than a pleasant trip out of town to elect new officers and decide where to hold next year's meeting.

United Church youngsters will have no national officers, no national meetings, but instead will conduct annual "youth forums." The first will be a discussion next year in some Southern city on the subject of race relations.

On the local level, the youngsters intend to be as active as possible in church activities.

## Ben Bella Tries To Halt Fighting Outbreak Which Imperils Cease-fire Order

By MICHAEL GOLDSMITH

ALGIERS (AP)—Deputy Premier Ahmed Ben Bella and the commander of the rebel guerrillas holding Algiers fled to Orleansville Thursday to stop a new outbreak of fighting between their forces.

Ben Bella and Col. Si Hassan, commander of guerrilla Wilaya No. 4, had toured the front lines—including Orleansville—to end shooting at three points in which 100 men were reported killed or wounded Wednesday.

The new clash forced postponement of a meeting between military leaders of both sides to draw up a formal cease-fire agreement, TRY ROADBLOCKS.

Ben Bella's regular army troops reportedly had tried to push through guerrilla roadblocks on three highways to Algiers, violating a cease-fire provision that they would stay out of the guerrilla territory.

The heaviest fighting was reported at Aumale, 55 miles southeast of Algiers. About 40 soldiers were reported killed there.

Other clashes were reported near Orleansville and Berrouahia. Under the cease-fire terms all troops had been ordered to hold their positions and indications were that the rebel guerrillas acted defensively after the regulars advanced on their roadblocks.

Col. Houari Boumedienne, the regular army commander, was described as displeased with the cease-fire arranged Tuesday night because he denied his troops a victory over the rebels.

Ben Bella's political bureau concluded the cease-fire with commanders of the rebel guerrilla Wilayas (zones) 3 and 4. Col. Si Hassan, Wilaya 4 commander, accompanied Ben Bella on a helicopter trip to halt Wednesday's outbursts.

Leaders of the feuding factions were gathering in Algiers to arrange a more permanent peace settlement. Sources close to the political bureau said election of the country's first National Assembly could be held within 10 days and a full-fledged government formed soon afterward.

## NAB OFFICIAL FOR MACING

DOYLESTOWN, Pa. (AP)—The chairman of the state Workmen's Compensation Board, Democratic leader John Welsh, was arrested Wednesday night on a charge of violating the state's antimacing law.

Welsh, who is Democratic chairman of Bucks County, denied the allegations at a preliminary hearing before a justice of the peace.

The macing charges were brought by employees of the state Highways Department and employees of the Turnpike Commission who work in Bucks County. They complained that Welsh demanded a portion of their salaries to be used for election purposes.

The charges were investigated by Paul Becker, district attorney and Republican chairman of Bucks County, and by the state attorney general's office, under Democratic control.

A warrant for Welsh's arrest was signed by a county detective and by an agent from the attorney general's office.

## SCHOOLS ARE INTEGRATED IN COATESVILLE

COATESVILLE, Pa. (AP)—The last vestige of racial segregation disappeared from Coatesville's public schools Thursday.

White and Negro pupils were integrated for the first time in the S. W. Harris School, heretofore entirely Negro, and were brought together on a more extensive scale in Terry School.

In all, about 700 pupils were involved in the changes, which affected first through sixth grades at Terry and fourth through sixth at Harris.

Without hitch. The completion of classroom integration was accomplished, authorities reported, without a hitch. No crowds collected; nothing resembling even a small-scale demonstration developed; no police task force was needed to see that all went well.

A newsman said people didn't even talk about it. The chief of police cruised by the area from time to time; that was the only sign of anything that might be called a departure from routine.

Parents of some of the Negro children went along for the enrollment, and many of them stopped for a chat with the teachers, all in what was described as a strictly normal and amiable procedure.

Two other elementary schools in Coatesville, which has about 15,000 population, were integrated before, as were the joint high school and the junior high.

## TOP GOLFERS GATHER FOR AKRON MATCH

By FRITZ HOWELL  
Associated Press Sports Writer  
AKRON, Ohio (AP)—Golfdom's top-titled trio moved into town Thursday for two practice rounds preceding the Saturday-Sunday \$75,000 "world series" over Firestone Country Club's troublesome terrain.

Arnold Palmer, big-money winner and holder of the British Open and Masters crowns, goes against PGA champion Gary Player and National Open king Jack Nicklaus in the 36-hole medal play chase.

The winner gets \$50,000, the second-place \$15,000 and the tail-end \$10,000. The payoff could jumble the money-won standings.

Palmer leads the pack at present with \$80,198, but must take the top cash to stay ahead. Player is fifth with \$44,338, Nicklaus third with \$33,518.

One thing is certain, if par for the 36 holes takes the big prize over the 7,165-yard par 70 layout, the victor will get \$337 for each shot he makes, and \$25,000 per day.

The gallery will be limited to 8,000 per day for the two-day scrap from which the winner will emerge as the "world champion golfer."

## MILLER BLASTS SPACE CRIERS FOR WEEPING AT RED FEATS

By GEOFFREY GOULD

WASHINGTON (AP)—Rep. George P. Miller, D-Calif., chairman of the House Space Committee, today struck back at "Monday morning quarterbacks" whose teeth start chattering after every Russian "spectacular" in space.

Miller, in a speech prepared for House delivery, said these critics have demanded more emphasis on military applications in space in response to the Soviet feat of orbiting two cosmonauts at the same time in separate space ships.

Miller said a heavy effort in military space projects has long been under way. The U.S. military space effort this year will cost about \$1.5 billion. Most of this will be spent on such projects as missile-warning and reconnaissance satellites, a communication satellite system and other nonweapon devices.

Miller told the House "our defense officials are not dolts, and I suspect that their decisions are based on information and intelligence which is somewhat superior to that of their lay critics."

Miller said in his speech that the implications of the Soviet space twins' orbit "are no reason for us to put our program in a constant state of flux, with projects starting, stopping and shifting in response to each new Soviet development."

Furthermore, Miller said, "I don't believe we are doing badly."

## DE GAULLE WELCOMED

DUESSELDORF, Germany (AP)—French President Charles De Gaulle got a hearty welcome Thursday from this industrial city on the third day of his state visit to West Germany.

German Chancellor Konrad Adenauer accompanied De Gaulle on the Rhine boat from Cologne. The trip gave them a chance to continue their political talks on the future of Europe and French-German cooperation.

He said the Soviets began work on manned space flight in 1955 and "six years later the Soviets had a man in space. We put a man there in three years on the time we went to work on it. Their spacecraft was larger than ours, but I see nothing in that record to wince at."

## Missing Man Found At Home Of Friend

McCONNELLSBURG, Pa. (AP)—A search for a missing Fulton County man was called off Wednesday night after he was located at the home of friends.

State police said Donald Gress, 28, of Big Cove Tannery, was found to be staying with unidentified friends in York.

An extensive search was begun when Gress allegedly slashed his wrists and fled his home after an argument with his wife.

LOS ANGELES (AP)—Five men were killed and two injured Wednesday when a crane boom fell on them at a construction project on the University of Loyola campus.

The crane operator said he was lowering atwo-ton bucket of cement when a cable broke and let the boom drop.

## Modern Living Calls For More Hot Water Faster

In today's modern home it's a case of water, water needed everywhere — and particularly hot water. But the problem is how to get enough of it for our larger families and needs, how to store it in our smaller-sized houses, and produce it as rapidly as possible and inexpensively.

Today's house may "over appliance" itself with hot water-gulping contrivances, but fail to be equally modernized in its hot water capacity.

This is the case with water heaters in many American homes today, according to the National Fueloil Council. While householders go merrily along buying such time-saving items as automatic dishwashers and washing machines, and adding extra bathrooms, not to mention having lots of babies, the incumbent water heater becomes literally "swamped" by the increase in the demands placed upon it.

From early morning till late evening, the kitchen, laundry, and bathrooms of the modern American house are continually in use for any number of reasons — showering, shaving, bathing, washing, shampoos, brushing teeth, food preparation — and, of course, washing dishes — frequently in a new, hot water-gulping dishwasher.

Add to this, washing the family clothes in the automatic machine,

and the other general household uses for hot water, and it is easy to see how this element — and the water heater — play a vital and new role in modern living.

A generation ago a family of four used about 1,000 to 1,200 gallons of hot water a month. Today's needs are triple — around 3,000 gallons a month (100 gallons a day). Dishwashing and automatic laundry consume about 45 per cent of this, showers and baths another 30 per cent. The rest goes into washing hands and face, house cleaning and miscellaneous uses.

Not only do homes need more water, but a lot of it has to be hotter — 140 degrees for average uses up to 160 degrees recommended for dishwashers.

Among modern developments for the home aimed at solving this problem is a new oil-fired water heater that needs only one hour a day to produce 120 gallons of hot water in a compact 30 gallons storage tank.

It burns oil combined with air in a gun-like burner head as do the automatic oil heating plants. The secret of this heater is its "recovery rate" — the speed with which it can heat up water for the storage tank as the supply is used.

## Handy Hints for Homeowners

### IVY BEAUTY

The informality of flowering or evergreen vines provide charming softness and beauty to stiff angular lines of homes, garages.

## Play Room To Guest Room

If your children are past the playroom stage, you may wish to convert this once sacred portion of your home into an attractive setting for your overnight guests.

After you have repainted the walls from the bright reds, blues, or yellows that children love, to soft pastel shades, pick out spreads, mattresses and springs that will contribute to the beauty of the room and comfort of your visitors.

## EDUCATIONAL TV NETWORK OF 9 STATIONS

HARRISBURG (AP)—Preliminary plans for a statewide educational television network of nine stations have been approved by the State Council of Education.

The policy group approved Thursday service areas for the nine stations and asked the Pennsylvania Educational Television Network Study in Philadelphia to draft plans for implementing the program.

The Philadelphia organization is financed by a private foundation, but the state legislature must authorize construction of facilities.

### AREAS EXTENDED

The nucleus of the network would be existing stations in Philadelphia and Pittsburgh and proposed stations in Harrisburg, State College, Allentown, Wilkes-Barre, Erie and Altoona.

Nine counties were added to the present five counties in the Pittsburgh region, extending its territory from Greene and Fayette counties in the south to Mercer, Venango and Clarion in the north, and the Ohio state line on the west and Jefferson, Indiana, Westmoreland and Fayette counties in the east.

The Philadelphia station's service area was broadened to include all of Bucks, Montgomery and Chester counties.

### NEW SERVICE AREAS

The counties in the proposed new service areas included: Lehigh Valley (Allentown) — Northampton, Lehigh, Berks, Schuylkill, Carbon, Monroe and Pike.

Wilkes-Barre-Scranton — Luzerne, Lackawanna, Wayne, Wyoming, Columbia, Montour, Northumberland, Snyder, Union and Lycoming.

### AREA FOR ADAMS

South Central (Harrisburg) — Dauphin, Cumberland, York, Lancaster, Lebanon, Perry, Adams, Franklin and Juniata.

Central (Penn State) — Centre, Clinton, Mifflin. Clearfield tentatively has been proposed for this area but was not in the action Thursday.

Altoona-Johnstown — Cambria, Blair, Bedford, Fulton, Somerset and Huntingdon.

Northwestern (Erie) — Erie, Crawford, Warren and Forest.

## Predicts Return Of Prohibition

MIAMI BEACH, Fla. (AP)—"A lot of people call us little old ladies in witches' hats—but we've stuck to our guns over the years."

That's what the president of the Women's Christian Temperance Union, Mrs. Fred A. Tooe, said before the organization's 88th annual convention started today.

She predicted that prohibition would return within 10 years.

## Cuba May Bring Call For Reserves

WASHINGTON (AP)—Sen. Homer E. Capehart, R-Ind., says he thinks President Kennedy may call up Army reserves by the end of the year to deal with communism in Cuba.

"I don't have any inside information at all," Capehart told newsmen Thursday. "It's just a guess on my part. But I think he may do it."

For more than a year Capehart has been urging a Marine invasion of the Caribbean country. He reiterated the demand at a luncheon marking the beginning of his campaign for a fourth Senate term.

## Feature Home Of The Week

**DESIGN C-1971.** Traditional comfort and charm are combined in this economical but elegant two-story home that provides four bedrooms, two bathrooms and a first floor lavatory for the larger family building on a budget. There is a true center hall plan, with ready access to the upper floor, to the living room, to the dining room, or to the fine family kitchen, all without crossing any other room. The living room has three exposures, and the dining room across the hall has a big picture window that looks over the entry porch. The attached garage has a rear door as well as sheltered entry into the house via the kitchen. If the family can dispense with the dining room, it is a wonderful spot for a den. Area on the first floor covers 835 sq. ft. and on the second floor there are 393 sq. ft. For further information on Design C-1971, write to Illustrated Publications, Inc., 117 West 48th St., New York 36, N. Y.

## Plan For "Indoor" Convenience Outdoors

For true relaxation in outdoor living, your patio or swimming pool area should be planned as carefully as your living room.

Such indoor conveniences as a telephone, radio and TV, electric coffee-maker, frying pan and portable refrigerator can add much to your pleasure.

The important thing is proper planning and a primary point in this is the correct placement of special conveniences both for ease of use and safety. When circuits for electrical appliances are planned, the placement of outdoor furniture should be taken into consideration. Avoid stretching cords across open spaces—a common cause of accidents about the home. Enough outlets should be installed to adequately handle the number of appliances needed.

The telephone site also should be planned ahead for the greatest possible convenience and with the arrangement of outdoor furniture in mind. When the phone is placed in a spot handy to a table and some comfortable chairs, it can make it easier to place and answer calls.

With the telephone, it's possible to have the same neat appearance of concealed phone wiring (whereby phone wires are channeled out of sight in the manner of electrical wiring) outside the house as well as inside.

The telephone company should be consulted when the outdoor area is in the early planning stage. It makes sense to have the telephone wire run beneath a concrete surface—a difficult feat if the concrete is already in.

Outdoor phones are usually portable instruments equipped with plug-in jacks. Color is an added feature of today's phones and can be used to accent or blend with the color scheme of outdoor furnishings.

Once the stain has completely dried, apply a durable, glossy finish as follows: Apply a lacquer sealer and rub with 6/0 sandpaper. Follow with a minimum of two coats of clear varnish or shellac and rub smooth with 3/0 steel wool when the last coat has dried.

The prefinished paneling is then ready to be installed and it should be blind nailed wherever possible, especially at eye level. Blind nailing is achieved by nailing into the tongue of the panel so that the groove of the next piece of paneling will hide the nail hole. Number 5 finishing nails should be used and should be countersunk.

At inside corners, trim off the moulded patterns and butt the new wall of paneling tight against the completed one. For outside corners, miter paneling edges or ends.

Staining comes next and can be done with a good commercial product by using pigment and mineral thinner. It is essential to test the stain on a piece of the same wood you are staining to make certain it is what you want.

When paneling over masonry walls, back paneling and strips should first be coated with a commercial waterproofing material.

**NAILING STRIPS**  
Three nailing strips, fastened to masonry with concrete nails, are all that are necessary for vertical paneling; strips for horizontal paneling should be placed every four feet.

Next on the agenda is precutting paneling to fit, and prefinishing it as well. Panel finishing assures an even job — no chance for an unwanted two-tone effect or unfinished spots where panels are joined.

The basic steps involved in applying fine finishes to lumber paneling are as follows: First sand carefully with medium grade sandpaper to smooth out rough imperfections if necessary. Then use 3/0 paper to achieve a smooth surface.

Horizontal paneling over framing does not require nailing strips; vertical does, however.

**MOTHER MAKES PHONE CALL.** While keeping eye on children at the swimming pool, this pool-side convenience is available via outdoor phones, usually portable, equipped with plug-in jacks.

## Trend To Lighter Tones Is Seen In Roofing Materials

## Pass-Through To Kitchen Proves Big Step-Saver

The kitchen pass-through could save you a lot of steps. It's simply an opening in the wall through which you can pass food, dishes or the like. Usually it is located between the dining room and the kitchen.

It is well to use a sturdy, heat-proof material like ceramic tile for the pass-through's serving counter. The counter must have a fireproof surface for safety — and plenty of durability to stand up under the constant abuse of hot dishes and pans. Because it's bound to be soiled, your counter should also be easy to clean. A wet sponge will do the trick on real tile.

## College Atmosphere At Home

For the college student who lives at home a dormitory-like atmosphere in his room will give him that important on-campus feeling. A double deck bed will contribute to the illusion as will the desk, books, pin-ups and other standard college-boy items. Many of the double deck beds on the market can be separated and used as twin beds, if desired. Be sure that the mattresses and springs are in good condition so that the student will get refreshing night sleeps for his busy days.

## YANKEES WIN OVER ANGELS; FLAG CHANCES ARE VERY GOOD

By JIM BECKER

Associated Press Sports Writer

"The schedule appears to favor us," says New York Yankee Manager Ralph Houk.

A long look down the American League road home shows that Houk is not indulging in wild optimism. In fact, the Yankees could be excused for placing their annual order at the print shop for World Series tickets any day now, if they haven't already.

The Yanks have 20 games left, and 11 are with the Boston Red Sox (7) and the Washington Senators (4). The Yanks are 20-3 with those clubs this year.

### ERROR IS COSTLY

The New Yorkers wound up their season play with the two top contenders Thursday, as they rallied for four runs in the bottom of the seventh to trim the Los Angeles Angels 6-5 in the only game scheduled in the league.

The victory opened a three game lead over the idle Minnesota Twins, and 4½ over the Angels.

Leftfielder Tom Tresh singled home two runs with two out in the seventh to cap the Yankee rally, after Angel shortstop Joe Hooper committed a costly error to open the gates.

### GET EVEN SPLIT

The victory gave the Yankees a 2-2 split in the hotly-fought series with the Angels.

The Angels battled back from behind to win two of the games and appeared to be riding the same formula to victory Thursday, when they broke a 2-2 tie with three runs in the top of the seventh.

The Yanks battled back with two runs off Angel starter Dean Chance. Then Koupe, who had just replaced Jim Fregosi at shortstop, threw wide on Kubek's grounder. Bobby Richardson doubled, and Dan Osinski came in to relieve Chance. Tresh lined his second pitch to left for the two key runs.

## GOP HOPEFULS VISIT PICNIC IN TANEYTOWN

Maryland Republican candidates for office in the November elections spoke briefly at a covered dish picnic held at the Taney Inn Tuesday evening by the Taneytown Federation of Republican Women.

About 75 members and guest heard Fife Symington, candidate for Congress; Jack Hahn, candidate for state senator; Leonard Sherman, Elsie Arbough and Herman Manahan, House of Delegates candidates; Charles Saylor, Edmund J. Carr and Raymond Perry, candidates for county commissioner; Charles Conway, candidate for clerk of court; LeRoy Campbell, for sheriff, and Byron McIntyre, for state's attorney.

Mrs. James Baumgardner, Taneytown, was appointed to the GOP state committee. A meeting was set for October 2 at 8 p.m. at the Taney Inn to complete plans for election day coffee and doughnuts. Named to the committee in charge were Mrs. James Baumgardner, Mrs. Raymond Perry, Mrs. Claude Derr. Projects for encouraging new registrations and taking voters to the polls on Election Day will be formulated.

### NOVEMBER MEETING

The November meeting, which falls on Election Day, will be omitted.

The annual banquet will be held December 4, with Mrs. Stanley King, Mrs. John S. Harner, Miss Lois Brown and Mrs. Olivia Barker in charge. At that time the state of officers for 1963 will be presented by the nominating committee: Mrs. Ed Morelock, Mrs. Virginia Sanders and Mrs. Charles Stoneheiser.

On September 11, at approximately 3:30 p.m. the Republican cavalcade of candidates will stop at Taneytown for informal meetings and greetings. In the evening at Republican headquarters in Westminster, John Marshall, under state Republican sponsorship, will discuss precinct organization work and all Republican workers in the county are invited. September 11 and September 18 are the voting registration days, at the first hall in Taneytown, from 9 a.m. to 9 p.m. The Republican men of Hampden, honoring Mr. Small, candidate for governor. County Republicans are invited.

## President Flying To Newport Today

WASHINGTON (AP)—President Kennedy flies to Newport, R.I., late today to spend the weekend with his family.

The President, his wife and two children are expected to fly from Newport to Hyannis Port, Mass., sometime during the weekend to visit the President's father, Joseph P. Kennedy.

The President plans to return to Washington Monday morning.

## PEOPLE SHOCK PATTERNS OF STATISTICS

MINNEAPOLIS, Minn. (AP)—The big job used to be collecting statistics about people. Today it's making the statistics fit the people. They keep on doing things their own way even when the figures have indicated a different trend under way. And often people wonder why the statistics seem to be contrary to their experience.

Statistics by the hundreds are gathering here today to run their profession through the human computers of their own minds. They are studying how to improve the gathering and interpretation of statistics—all the way from stock market trends to unemployment totals.

And the 122nd annual meeting of the American Statistical Association is taking sidetracks into the fields of getting people to understand statistics—and, especially, to stop jumping to conclusions.

### JOB CONFUSION

The confusion this week over the government's statistics on jobs and the jobless is a case in point. Employment in August hit a record high. The total of the jobless dropped. And yet the percentage of the labor force out of work rose.

Some say it's all because of women. Others say the seasons seem to be getting out of kilter. Some think the percentage rise in the unemployment rate is all because of the big crop of babies in the war years.

The women are credited with the smaller than expected drop in unemployment in August because up to 100,000 were counted as jobless when they were really just waiting to take their first jobs as teachers or new jobs in that profession. This month they switch from the unemployed to the employed side of the ledger.

But this August the labor force got bigger than expected, not only because of the women biding their time but perhaps because all those war babies are growing up and job hunting.

The seasons are viewed askance because they seem to be coming earlier each year. Statisticians take the seasons into account and adjust their figures to fit what they think the seasonal pattern is, or should be. Thus, in June they make allowance for the hordes of students and teachers looking for summer jobs, and therefore technically unemployed. In August the statisticians figure those who did not find jobs got tired of looking and dropped out of the labor force. So unemployment totals should drop.

Seasonal changes also are blamed on the auto industry this time. When the August figures were taken most auto production lines were down for model change-over, and the laid-off workers were listed as unemployed. This month most of them should be back on the job.

Detroit keeps changing its model changeover period from year to year and this is very trying to statisticians striving to adjust to previously agreed upon seasonal patterns.

## BAXTER SETS COURSE MARK WITH 64 SCORE

DENVER (AP)—Colorado may be a lucky state for golfer Rex Baxter Jr., he reasoned after shooting a course record 64 Thursday to vault three strokes ahead of the field after the first round of the \$35,000 Denver Open.

The 26-year-old winger from Amarillo, Tex., who won the 1957 national collegiate title at nearby Colorado Springs, said his 6-under-par tour of the 6,733-yard par 35-70 Denver Country Club course was the finest round of his competitive career.

That out him three strokes ahead of Dow Finsterwald, Ken Still and Bill Johnston.

### STILL CAUTIOUS

But Baxter, bidding for his first tournament victory since hitting the money trail four years ago, was cautious going into today's second round.

"Five times I've been in the 60's after the first round in the 27 tournaments I have played this year," he said. "I just haven't been able to put four good rounds together. Maybe this will be the turning point."

Following Finsterwald, Still and Johnston at 67 were five seasoned pros at 69: George Bayer, Mason Rudolph, Doug Sanders and Don Massengale. Next in line at 68 were Jack Fleck, Jim Ferree and Bob Goetz.

## PLUMP AND 40 WOMEN TOP TV CONTESTANTS

By CYNTHIA LOWRY

AP Radio-Television Writer

HOLLYWOOD (AP)—The ideal amateur contestant in an audience participation show is a woman of age 40 or more and on the plump side.

That is the opinion of Bob Barker, who has been picking participants for his day-time "Truth and Consequences" for the past six years. Before each show, after the warm-up in the Hollywood studios of NBC, Barker walks into the audience and chooses the participants.

"I'm looking for characters," explained Barker, "but we don't want people who will freeze up when they realize they are on camera. The first thing I look for is animation. Then I ask them to stand up because I've found that many people are enthusiastic when they are just one of a crowd but dry up when they realize the spotlight is on them. Then I test a bit to make sure that they are self-confident but not aggressive."

### MEN OFTEN STAR

"Lots of people come to the show feeling they would be a riot on TV because people have told them they are a scream at a neighborhood cocktail party or over a bridge table. Usually they aren't."

Barker says that, with many outstanding exceptions, his best contestants are mature and comfortably cushioned matrons.

"Married women who are over 40 are likely to be more relaxed and easy as contestants," Barker theorized. "By that time the house is paid for, the car payments aren't looming large and their husbands are safe. They know they aren't going to starve."

Frequently the amateur stars of the show are men—and he has found that he must pick the males with extra care.

"Men are always a little more self-conscious than women," he said. "And they are much more insistent about preserving their dignity."

## BROWNS FACE CHICAGO TEST IN EXHIBITION

The Cleveland Browns, standing ready to try and assume command once more of the National Football League's Eastern Conference, get their final exhibition test of the 1962 season tonight when they engage the amazing Chicago Bears in Chicago.

What has been so amazing—or frustrating to Bears' Coach George Halas—has been his team's inability so far to win in four outings. The Browns on the other hand are unbeaten in four games.

Detroit, picked to battle Green Bay for the western title along with Chicago, Baltimore and San Francisco, play the St. Louis Cardinals in St. Louis in a return match of the Lions' 19-14 victory last weekend in Omaha, Nebraska.

### OTHER ACTIVITY

In other weekend NFL exhibition activity, the defending eastern titlist New York Giants and one of the pretenders to their throne, the Philadelphia Eagles meet Saturday afternoon in Princeton's Palmer Stadium, while at night the Packers put their 5-0 mark against Washington at Columbus, Ga., the 49ers meet the Los Angeles Rams in Los Angeles and the Dallas Cowboys face the Minnesota Vikings in Atlanta.

The Baltimore Colts and Pittsburgh Steelers wind up the pre-season activity Sunday afternoon in Pittsburgh.

End Mike Ditka, the NFL's rookie of the year in 1961, may see part-time duty as may flanker back Johnny Morris, both of whom have been hobbled most of the exhibition season.

Milt Plum, who traded places at Detroit (3-1) with Ninowski, and Sam (The Rifle) Etcheverry renew a fling in St. Louis. Plum, improving each week as he learns the Lions' system, hit 20 of 40 a week ago, while Etcheverry proved his arm ailing of a year ago is cured by connecting on 14 of 26.

## Hope To Avert Big Aerospace Strike

WASHINGTON (AP)—The chairman of a special presidential board trying to head off a major strike in the nation's aerospace industry says he is "very hopeful of agreement."

The chairman, Dr. George W. Taylor, told a news conference Thursday that both sides have resumed direct negotiations after three days of talks between the board and representatives of labor and management.

He expressed optimism that an agreement would be reached before the Sept. 21 deadline set by the United Auto Workers and the International Association of Machinists.

The four firms involved are North American Aviation, Lockheed Aircraft, General Dynamics and Ryan Aeronautical.

WASHINGTON (AP)—Tax-exempt foundations and similar organizations will be required to make public greater financial information about themselves.

And their tax returns will be given closer examination. The stricter requirements, announced Thursday night by the Internal Revenue Service, are believed an outgrowth of persistent congressional inquiry into possible tax abuses in this field.

# Trucking Angels Defeat Radar Patrols Checking Excessive Highway Speed

(Editor's Note: The job of enforcing Pennsylvania's highway speed limits often develops into a game of wits between the enforcement officer and the speed-prone driver. This aspect of the speeding problem on our highways is discussed in the concluding part of a two-part Associated Press series.)

By FRED WALTERS  
HARRISBURG, September 7 (AP) — "You'd think I hadn't taken a bath for a week and they could smell me."

The remark was made in jest by a Pennsylvania state policeman, but it illustrates "pungently" the difficulty state police patrolmen have in catching truck drivers who violate the speed limits.

In a radar-checked speed survey made during the summer by O.D. (Mike) Shipley, commissioner of traffic safety, accompanied by an Associated Press newsmen, it was shown that a majority of truck drivers are ignoring the speed limits on Pennsylvania's express highways.

On the other hand, a majority of the passenger car drivers were obeying the limits.

## RADAR ARRESTS

State police reports of arrests by radar teams show an opposite picture, however.

They began using radar a little over a year ago — September 1, 1961 — and in the first 11 months had arrested 30,533 motorists but only 8,903 trucks.

State policemen on road patrol will tell you, however, that catching a trucker speeding is an extremely difficult task.

The truckers have a simple system for warning their colleagues that a state police patrol car on a radar team is operating on the road: They flash their lights three times to warn oncoming truck traffic.

## TRUCKING ANGELS

Working on the road with Shipley on the radar survey, the results of this system were observed many times.

"Look at these 'angels' coming by," Shipley observed, as a line of trucks passed by a turnpike checkpoint at 50 miles per hour like a well-trained chorus line. "You can bet there are lights flashing down the road to warn that we're here."

Despite these occasional synthetic slowdowns, 74 per cent of

the truck traffic checked over a period of nearly eight hours at five different areas was exceeding the truck speed limit. There were a total of 672 trucks checked and 498 were over the limit.

On the other hand, there were 1,040 passenger vehicles checked and only 244, or 23 per cent, were exceeding the speed limit.

In nearly every case, the passenger car limit was 10-15 miles per hour over the truck limit. There is some thought that trucks should be allowed the same speed as passenger cars.

## WOULD TO EXPERIMENT

"I think we ought to experiment in some roads east of the Allegheny Mountains, on the Federal Interstate System, with all vehicles at the same limit," says Shipley.

"It's proven successful on the New Jersey turnpike. It gives you an even flow of traffic and eliminates the necessity for a lot of passing of slow-moving vehicles."

No assessment was made of the bus situation.

Buses operate in a world of regulations that are part commercial vehicle, part passenger car.

## BUS CHECKS

Of the seven buses noted during the checks, six were exceeding the posted speed limit for passenger cars. This is the limit generally in force for buses, too.

In 11 months of radar operation by state police, 95 bus drivers have been arrested.

Points in favor of raising the truck limit, Shipley says, are the generally better quality of drivers behind the wheels of the big rigs. Trucks also generally are inspected more regularly than passenger cars to assure they are in safe operating condition.

On the other hand, Shipley says, there is one great disadvantage, and that is "the reluctance of many people to follow a commercial vehicle, whether a truck or a bus."

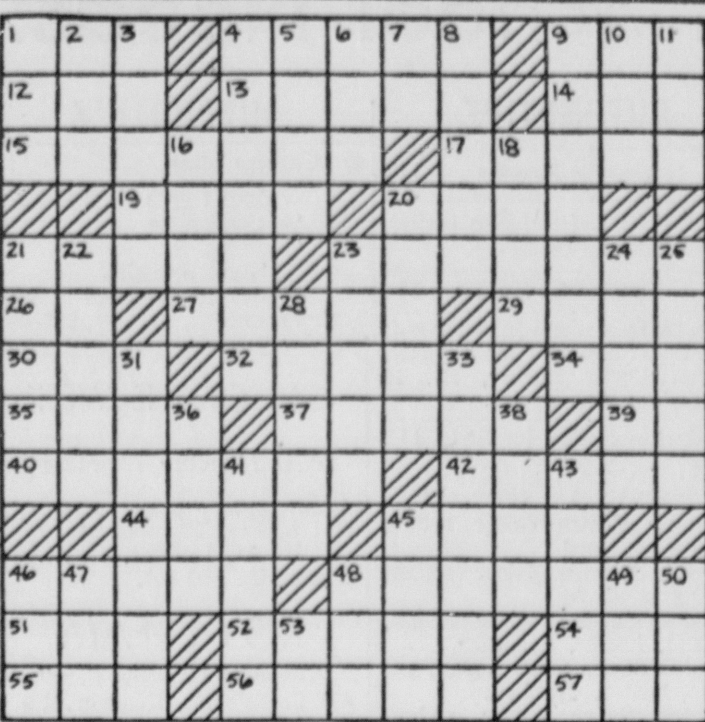

## WANT TO PASS

"They don't want to stay behind; they want to pass," he says. "This could create dangerous situations."

There were a number of driving practices observed on the high check-points at 50 miles per hour like a well-trained chorus line. "You can bet there are lights flashing down the road to warn that we're here."

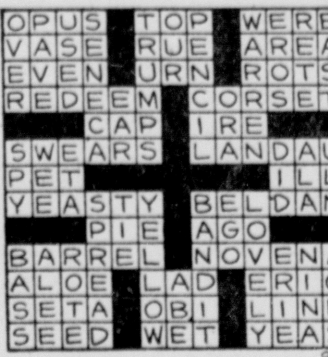

Despite these occasional synthetic slowdowns, 74 per cent of

## PSU Gridders In Scrimmage In Rain

UNIVERSITY PARK, Pa. (AP) — Penn State's first football scrimmage of the season was rated by Coach Rip Engle as "a good effort" with the usual mistakes.

The best effort in Wednesday's scrimmage was made by the offensive units which racked up six touchdowns despite a pouring rain.

Quarterback Pete Liske was a standout as he took over direction of the first team after Don Caum pulled a leg muscle in a morning kicking drill.

gating," or following too closely. But, the problem of most immediate concern is enforcing the present speed limits.

The state policeman on patrol sometimes feels that the trucker knows more about his patrol habits, the car he's driving, than the trooper does himself.

Shipley favors more radar patrols.

"The use of radar should be increased sharply," he says. "I would favor the use of one-car radar teams. It's working very well in Delaware."

In Pennsylvania, as in other states using radar, the state police work in teams, with one car operating the radar set and one or more cars staked out ahead to pick up vehicles that the radar operators advise by radio are speeding.

"With a one-car operation," Shipley comments, "the trooper has the see in his car and when he picks out a speeder he goes after him. He makes his arrest, then moves on to a new location."

## MORE MOBILITY

"It gives your radar check more mobility; it's not as easy to spot."

Shipley, who has developed a number of tricks for concealing radar operations over the years (none of which he used in the checks cited above), would favor more artful use of radar, although there have been public outcries against deceptive speed checking procedures (such as unmarked patrol cars).

"If we have to conceal it to stop this lunatic fringe which drives at 60 miles per hour or more, then let's conceal it," he says. "This type of driver is going to get away with anything he can. You've got to outwit him."

## SHOT WILL BE "HUNK OF JUNK" AFTER DEC. 14

By RALPH DIGHTON  
PASADENA, Calif. (AP) — The sun's gravitational pull has captured the Venus-bound spacecraft Mariner 2.

But there's no cause for alarm — scientists planned it that way. At a point 1.6 million miles out in space Wednesday solar gravity became strong enough to overcome the earth's weakening pull on the 447-pound spacecraft.

For the rest of its uncalculated lifetime, Mariner 2 will be a tiny satellite of the sun.

## "HUNK OF JUNK"

Scientific interest in it will cease next Dec. 14 when the 12-foot-tall vehicle streaks past Venus at a distance of 9,000 miles.

Its scientific instruments, designed to help determine whether life could exist on the cloudy planet, then will be turned off and Mariner 2 will become another hunk of space junk orbiting the sun.

Scientists at Jet Propulsion Laboratory, where Mariner 2 was built, calculated both the dwindling earth gravity and the increasing solar gravity in figuring its trajectory through space.

## 6,000 MILES AN HOUR

Although traveling away from earth at about 6,000 miles an hour, the spacecraft is whizzing along an orbit around the sun at ten times that speed.

In the coming weeks the pull of the sun will grow stronger and Mariner 2's speed will increase. By the time it reaches the vicinity of Venus, the spacecraft will be going more than 90,000 miles an hour along its orbit around the sun.

In a sense, Mariner 2 now is falling toward the sun but it will not plunge into the sun. Its speed will keep it moving in a giant egg-shaped orbit around the sun for years.

## CURVING TRAJECTORY

The curving trajectory will take Mariner 2, launched from Cape Canaveral, Fla., Aug. 25, past the sunny side of Venus about noon Eastern Standard Time next Dec. 14 — a 180-million-mile journey in less than four months.

As it draws near the planet, radio signals from earth will switch on electronic devices to measure Venus' temperature and the makeup of its atmosphere. Sci-

entists now believe the planet may be too hot—600 degrees fahrenheit on the surface—to support life, and that there is little if any oxygen in its atmosphere.

After 30 minutes the instruments will be turned off and Mariner 2's scientific life will be officially ended.

## A Lovelier You

By MARY SUE MILLER  
YOUR HAIR AND YOUR HAIR-DO. Do you have a hard time finding a hat that doesn't "ruin"

your hairdo? Perhaps you never find one.

If so, either your hair needs restyling or your ideas about hats need reviewing. Every season millinery is created for every hairstyle that even faintly resembles the present mode.

This fall's small, jaunty berets and cloches slip over those newly sleek little coifs without muzzling a hair. For the crested hairdos—lifted at the crown and deeply waved—there are full-blown cloches, turbans and toques.

But, of course, the selection of a hat involves more than its ef-

fect on your hair. You naturally want it to flatter your face and complement your costume. And, milady, millinery designers are not unaware of your wishes.

The shapes, already mentioned, complete to perfection the current fashion silhouettes. In fact many couturiers feel that the clothes will not look complete without the hats. The couture shows berets with spare suits, cloches with casual silhouettes, turbans and toques with belted, full-skirted costumes.

Because all those hats may be worn with a slant, they are terrifically easy to wear. Slant lines, as every woman knows, play down the wayward feature. Moreover, plus fabrics and furs, and misty colors conspire further for flattery.

Now—you have the hat picture. Why not fit yourself into it and look a picture of loveliness.

## THE EYES OF YOUTH

You are not lost to youthful beauty because of dark circles, puffiness, or wrinkles around the eyes. These problems can be brought under control by proper skin care, cosmetic applications, health habits and facial expressions. Methods are detailed in my leaflet, THE EYES OF YOUTH. To obtain your copy, write Mary Sue Miller, Box 158, The Gettysburg Times, Dundee, Ill., enclosing 10 cents in coin and a large, self-addressed, stamped envelope.
